

Architecture Director Search Committee Meeting

October 16, 2018

Attending: Larry Scarpa (via skype), Seth Watts, Dean Anumba, Dr. Ray Issa, Nawari Nawari, Mary Kramer, Frank Bosworth, Mark McGlothlin, Jeff Carney, Martha Cohen (late) and Jamie Lindsey.

Meeting started 8:15 am

Dean Anumba gave the committee their mission: Identify and reach out to qualified candidates. The desire is for a director who is ambitious for the school and will get us back in ratings with Design Intelligence, etc. We need to get back to a high level research and good program and will grow the endowments, grad program and scholarships. He asked that the committee at the end of the search send him the name of 3 candidates with their strengths/weaknesses

Plan of Action: Come up with an advertisement for the job. When the committee reaches a consensus on the job, it will be shared with the School of Architecture then send it up the chain for a job number. The committee needs to decide where it wants to advertise. Would like to have the add out by the end of November and want to bring people in for interviews by the end of January, beginning of February.

Mark sent everyone a copy of the last advertisement for review. Seth will update the Development portion. We need someone who will make time for alumni visits, etc. with development officers. Nawari suggested updating to make sure that research is highlighted. We need to be preeminent. Larry said he has already put eight names forward for consideration. We want to make the best decision possible as a committee.

Meeting adjourned at 8:40 am
