## COURSE DESCRIPTION:

This course provides the key elements of:

- Providing the foundations for establishing policies as is relates to disaster/emergency management
- Application of leadership concepts through critical thinking
- Analysis and development of personal leadership skills

Disaster Policy in Emergency Management is a three (3) credit course scheduled to meet each fall semester via distance education (online learning) via the Canvas Learning Management System platform. It is a graded course and there are no prerequisites.

The course describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. The emergency planning process itself is also emphasized

- **REQUIRED TEXT:**

The textbook required for this course is:

*Disaster Policy and Politics: Emergency management and Homeland Security, 2<sup>st</sup> ed., (2015)*  
Sylves, R. CQ Press ISBN 978-1-4833-0781-7

Additional resource materials will be distributed to supplement the above textbook.

## LEARNING OBJECTIVES:

At the completion of this class, the student should be able to:

- Demonstrate an understanding of the fundamental challenges of emergency management.
- Identify the Normative Political Theories.
- Explain the essentials of emergency management as a profession and the application of that theory.
- Identify the roles of scientist and engineers.
- Demonstrate an understanding of the disaster management and theories of public management.
- Explain the presidential disaster declaration processes.
- Demonstrate an understanding of intergovernmental relationships in disaster policy.
- Explain civil-military relations addressing national security.
- Demonstrate an understanding of globalization of disasters.
- Rationalize the importance of recovery assistance during disasters in the United States.
- Effectively communicate their understanding of the future of disaster management.

## COURSE GOALS

1. The student will interpret and apply the terminology, concepts, methodologies and theories used within systems management.
2. The student expresses ideas in a convincing, organized, clear, coherent manner that is nearly error free and uses a style and language appropriate to the emergency services and the analytic profession.
3. Submitted written assignments should include such elements as well-crafted paragraphs, a persuasive organizational structure (e.g., introduction, body, conclusion; or introduction, methods, results, discussion), well-supported claims, and appropriate and effective stylistic elements adhering to APA style 6th edition.

4. The student considers the issues from multiple perspectives, logically analyzes evidence from credible, relevant sources, and develops reasoned conclusions.
- **Teaching Philosophy:** I am looking for students to demonstrate a working knowledge of the subject. You need to be creative when you complete your assignments but maintain a professional appearance of your work. Your work should be completed in such a manner that someone can pick up your document and understand what you are trying to convey. Your work should be supported with research and cited in APA format.
- **Instructional Methods:** The course is designed for individual and group interactivity. It is important to post and respond to discussion questions in the course within the time frame allotted. This provides a learning environment by networking with other students in the course. The assignments are individual base to give you the opportunity to do a variety of activities, in many cases, similar to what you will be doing in role as a leader in the emergency services profession.

## CANVAS INFORMATION & TECHNOLOGY

Class meetings may require a web camera and mic/audio. If you are not able to use a web camera you will need to at least provide audio/mic, you can call in on a phone also. ## UF POLICIES:

**University Policy on Accommodating Students with Disabilities:** Students requesting accommodation for disabilities must first register with the Dean of Students Office.

The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive; therefore, students should contact the office as soon as possible in the term for which they are seeking accommodations.

### **University Policy on Academic Conduct:**

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment."

**Netiquette: Communication Courtesy:** All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats.

## COURSE POLICIES:

This course is delivered exclusively via a distance education (online learning) format. Although online learning has many advantages, including convenience of course participation, non-restrictive geographic locations, and independent study, it also imposes some very significant demands.

Probably the two most important demands are: self-discipline and motivation. To succeed in online learning courses, it is imperative that you maintain a strict, self-imposed schedule and commit time to fulfill the readings and complete the assignments. Experience has shown that students that do not discipline themselves to maintain a strict schedule fall behind in the courses and never catch up. The other demand that is important is to stay motivated. At times, the workload may appear daunting, but if you maintain your focus and continue to make progress every day, it is incredible what can be accomplished. Remember: stay motivated and maintain your schedule to complete course requirements.

Unlike other courses, online learning has limited restrictions regarding absences since there is no regular classroom time. However, failure to meet weekly/bi-weekly assignments will not only impede your ability to complete the course, it will also impact your grade negatively. Therefore, be sure to execute and maintain a regular and high level of participation in each course. It is recommended that you read the assignment as early as possible to allow adequate time to respond to Discussion Board Questions or other assignments. **Posting Discussion Board responses early allows your fellow students ample time to contemplate your responses and to provide comments to your responses (an integral component of online learning). Posting**

**on Discussion Boards on the last day does not allow for student interaction and will impact your grade negatively.**

Please make every effort to post your responses, complete your reading assignments, submit any written assignments or projects, and provide commentary to others' responses by the due date and time.

Most courses will require all weekly/bi-weekly session assignments to be completed by the start of the next session. Session conclusion and beginning of the next session occurs regularly each week/bi-week on a designated "turn-over" day. The turn-over day for this course is noted below. Be sure to complete all assignments by the turn-over day and time deadlines for each week as required.

For this course, that turn-over day is **Monday** and the deadline time is **11:59 PM (Eastern Time)**. That means that weekly assignments or discussion questions posted on a **Tuesday** must be completed and posted online (or for written assignments, electronically submitted) by **11:59 PM on every other Monday**. For each day the assignment is late, a two-point deduction from the final score will be assessed up to ten days, at which time no credit will be given. **There are only extreme exceptions or relaxation to this requirement.** These requirements are critical to maintain progression through the course, and to prevent you from falling behind. Please remember: Online learning requires a high level of motivation and self-discipline.

**\*\*QUIZ/EXAM POLICY:** There is a final project for this course. There are no exams or quizzes.

**\*\*MAKE-UP POLICY:** You must contact me if you are going to be late on any assignment to receive credit (This is on a case-by-case basis). **\*\*Assignment Policy:** *All assignments have a due date. Please be sure to check the date and time it is due in each module.*

### **Late Assignments and Discussion Posts**

- Assignments 48 hours late will receive a 10% deduction in their grade.
- Assignments more than 48 hours but less than 30 days late will receive a 20% deduction in their grade.
- Assignments more than 30 days late but submitted during the semester will receive a 50% deduction in their grade.
- Discussions more than 48 hours late will receive a 25% deduction in their grade.
- Discussions more than 48 hours later will receive a 50% deduction in their grade.

**Please note:** Any student has less than 75% of their work complete for the semester cannot earn an "I" contract. If you have 75% of the work complete, you can propose an I contract to the instructor. It is always your responsibility to keep your instructor informed. The instructor does have the right under extenuating circumstances with proper notification to assist the student by extending the above time requirements. **\*Points will be deducted for all late assignments.**
