Bio for Christopher M Reynolds, Ed.D., MEMS, EFO, CFO

Chris Reynolds, CEM has over 35 years of higher education experience in both the traditional and online classroom. He serves on two emergency management boards of directors and is involved with the International Association of Emergency Managers. He is also a recently retired Division Fire Chief and Emergency Manager with over 33 years of experience in a large metro-county fire-rescue organization. His emergency management experience includes the Oklahoma City Bombing, Hurricanes Andrew, Elena, Opal, and Katrina; Haitian Earthquake, and the Deepwater Horizon Gulf Oil Spill. Dr. Reynolds is a certified emergency manager (CEM) through the International Association of Emergency Managers (IAEM), a graduate of the National Fire Academy Executive Fire Officer Program (EFO), and is a Chief Fire Officer Designee (CFO) through the International Association of Fire Chiefs (IAFC). Additionally, he holds the Military Emergency Management Senior Specialist (MEMS) badge. He is also a registered Paramedic in the State of Florida.

Dr. Reynolds also recently retired after serving as a Lieutenant Colonel in the United States Air Force Reserve stationed at Tyndall Air Force Base, Florida as an Emergency Preparedness Liaison Officer (EPLO) assigned to Air Force Northern Command, 1st Air Force. Air Force Northern Command is the Air Force component of the North American Aerospace Defense Command and United States Northern Command (NORAD/NORTHCOM), responsible for all military support to civilian authorities in times of disaster. His prior assignment was as an aeromedical evacuation operations officer assigned to MacDill Air Force Base, Florida. His team was activated under the Presidential Partial Mobilization order issued shortly after September 11th attacks and deployed to the Afghanistan / Pakistan Theater in support of Operation ENDURING FREEDOM. Chris served as the OIC of an Aeromedical Evacuation Liaison Team at two forward operating bases and was responsible for tactical evacuation

of coalition and US casualties. They were the only Aeromedical evacuation capability in the immediate area and directly supported combat search and rescue operations.

He is a graduate of the United States Air Force Officer Training School and the Air Force Air Command and Staff College.

****COURSE DESCRIPTION:** Impacts of natural and man-made disasters, including terrorist attacks, on buildings. The class will also address CIKR - Private/Public Partnerships - Critical Infrastructure - Community Risk Assessment - Risk Management Practices - Hazard Mitigation - Natural Disaster - Critical Infrastructure Protection - National Infrastructure Protection Plan - Mitigating Risk & Sustainability

****PREREQUISITE KNOWLEDGE AND SKILLS:** Students participating in, and completing, this course are expected to have the skill and ability to conduct research using a variety of resources, assimilate the information contained in those resources, and make appropriate inferences. Students must also have the skills to effectively communicate through writing assignments and presentations. In ALL of your writing assignments grammar and content will be considered when grades are assigned.

PURPOSE OF COURSE: To provide students skills that will enable them to become proficient in assessing the impact of disaster or terror attacks on communities.

COURSE GOALS AND/OR OBJECTIVES: *By the end of this course, students will:*

- a. Analyze the nature, origins and limitations of risk.
- b. Critique and interpret the NIPP as it relates to CIKR.
- c. Compare & contrast local, state, and federal mitigation activities.
- d. Analyze and interpret data that will help them assess risks from disasters.
- e. Assess the roles of voluntary and government organizations in disaster.
- f. Determine the effectiveness sustainability.
- g. Interpret the known natural hazard threats.
- h. Assess the importance of critical infrastructure protection.
- i. Determine the state of current disaster affairs.
- j. Analyze the Heritage Foundation study.
- k. Interpret disaster after-action recommendations.
- l. Appraise the cycles of recovery, and the physical aspects of recovery.
- m. Determine whether current mitigation practices will be effective in the future.
- n. Assess the future of disaster management practices.
- o. Analyze current case studies and determine their impacts in 10 years.
- p. Formulate a comprehensive disaster response strategy.

****TEACHING PHILOSOPHY:** *I am looking for students to demonstrate a working knowledge of the subject. You need to be creative when you complete your assignments but maintain a professional appearance of your work. Your work needs to be complete and in such a manner that someone can pick up your document and understand what you are trying to convey. And most of all your work needs to be supported with research and cited in properly in APA format.*

****INSTRUCTIONAL METHODS:** *The course is designed for individual and group interactivity. It is important to post and respond to discussion questions in the course within the time frame allotted. This provides a learning environment by networking with other students in the course. The assignments are individual base to give you the opportunity to do a variety of activities, in many cases, similar to what you will be doing in role as a leader in the profession.*

COURSE POLICIES:

ATTENDANCE POLICY: *The course is designed in module format. You should check the site at least once a week. You are required to complete the assignments including discussion questions within the time period designated on the module. There will be meetings set up throughout the course.*

****QUIZ/EXAM POLICY:** *There is a final project for this course.*

MAKE-UP POLICY: *You must contact me if you are going to be late on any assignment and receive credit. Any late assignments will receive a 10% grade reduction for each week it is late.*

****ASSIGNMENT POLICY:** *All assignments have a due date. Please be sure to check the date and time it is due in each module.*

****LATE ASSIGNMENT & DISCUSSION POLICY:**

- Assignments 48 hours late will receive a 10% deduction in their grade.*
- * *Assignments more than 48 hours but less than 30 days late will receive a 20% deduction in their grade.*
- * *Assignments more than 30 days late but submitted during the semester will receive a 50% deduction in their grade.*
- * *Discussions more than 48 hours late will receive a 25% deduction in their grade.*
- * *Discussions more than 48 hours later will receive a 50% deduction in their grade.*

****COURSE TECHNOLOGY:** *Class meetings will require a web camera and mic/audio. If you are not able to use a web camera you will need to at least provide audio/mic, you can call in on a phone also.*

UF POLICIES:

UNIVERSITY POLICY ON ACCOMMODATING STUDENTS WITH DISABILITIES: Students requesting accommodation for disabilities must first register with the Dean of Students Office (<http://www.dso.ufl.edu/drc/>). The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive, therefore, students should contact the office as soon as possible in the term for which they are seeking accommodations.
