## About Your Instructor

Professor Weed is currently the Emergency Management Coordinator for the St. Petersburg campus of the University of South Florida. He oversees emergency management planning and policy, training and exercise, public preparedness and education and special events management and also oversees the Logistics Management and Resource Support program, Critical Infrastructure Protection and Key resources, and serves on a number of regional and state working groups.

Prior to his service at USF Professor Weed held the position of Emergency Management Coordinator for Pasco County Florida and Carroll County's Office of Public Safety Support Services, Maryland where he serves as one of the advisors to the Carroll County Commissioner's and the Public Safety Support Services Administrator on matters of emergency management and homeland security. Professor Weed began his tenure with the county in 2010, where he oversees emergency management planning and policy, training and exercise, public preparedness and education and special events management. Professor Weed is continuing to focus on building public and private partnerships and developing programs that connect the knowledge and energy of the county's citizens with the public safety community. This has resulted in a growing and comprehensive emergency preparedness program for Carroll County. Professor Weed is a retired Fire Chief and also serves as an Associate Professor of Public

Safety Administration at the University of Maryland University College and an Instructor III for the Florida State Fire College.

### Course Description

Course covers the broad issues involved in comprehensive emergency management at the local level. The emergency management cycle of preparedness, mitigation, response, and recovery is stressed as are the legal, operational and administrative aspects of state and federal interface. It focuses on the use of a number of ICS positions and their responsibilities during all the phases of the emergency management operations.

**Student Learning Outcomes:** Identify and evaluate organizational problems associated with fire and emergency services. Demonstrate strong verbal and written communication skills for leadership in fire and emergency services.

**Teaching Philosophy:** I am looking for students to demonstrate a working knowledge of the subject. You need to be creative when you complete your assignments but maintain a professional appearance of your work. Your work needs to be complete and in such a manner that someone can pick up your document and understand what you are trying to convey. And most of all your work needs to be supported by research and cited in properly in APA format.

**Instructional Methods:** The course is designed for individual and group interactivity. It is important to post and respond to discussion questions in the course within the time frame allotted. This provides a learning environment by networking with other students in the course. The assignments are an individual base to give you the opportunity to do a variety of activities, in many cases, similar to what you will be doing in a role as a leader in the emergency services profession.

### Course Policies

**Attendance Policy:** The course is designed in module format. You should check the site at least once a week. You are required to complete the assignments including discussion questions within the time period designated on the module. There will be meetings set up throughout the course. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalog at:

<https://catalog.ufl.edu/ugrad/current/Pages/home.aspx> (Links to an external site.)Links to an external site.

<https://catalog.ufl.edu/ugrad/1617/regulations/info/attendance.aspx> (Links to an external site.)Links to an external site.

**Quiz/Exam Policy:** There is a final project for this course. There are no exams or quizzes.

**Make-up Policy:** You must contact me if you are going to be late on any assignment to receive credit.

**Assignment Policy:** All assignments have a due date. Please be sure to check the date and time it is due in each module.

**Course Requirements:** Students are to complete all of the assigned readings and respond to discussion questions. I suggest that you try to manage your time by doing one assignment a week from the start of the term to the end. However, I do understand that not all students do that.

The purpose of the class is for students to develop their own capacities to handle course issues and concepts.

- Each student in the class will be responsible for all assignments, discussions, and projects.
- I WILL NOT GRADE MORE THEN 3 ASSIGNMENTS FROM ONE STUDENT AT A TIME. Please manage your time.
- I will respond to your inquiries within 48 hours of the time I received the inquiry.

**Discussion and Discussion Rules:** A "discussion thread" is started each time you submit an original discussion topic. Even though this course does not require you to spend time with other students in the classroom, it is VERY beneficial for you to communicate with other students and share information and ideas. This is the place to do it, and your grade will reflect that interaction.

**Responding to the Main Item:** A good title tells something of the nature of your personal response. "Response to Discussion 1" is not a very useful title, particularly if everyone in your course uses it.

**Responding to Other's Responses:** Make sure that you respond on the document intended so that your contribution will line up in the threaded discussion in the right place. Netiquette because the discussion is of a public nature, please observe proper "netiquette"-courteous and appropriate forms of communication and interaction over the Internet (in online discussions). This means no personal attacks, obscene language, or intolerant expression. All viewpoints should be respected. A great primer is located at: <http://www.albion.com/netiquette/corerules.html> (Links to an external site.)Links to an external site.

**Quality Discussion Responses:** Responses such as "I agree," "good question," or "good answer" are not acceptable. Any response that is just an opinion, or is unsubstantiated; any response that is carelessly typed, poorly thought-out, grammatically incorrect or confusing; or any response that is disrespectful of another student or any other person, etc., is not acceptable. A high quality response applies a concept from the text or course in a meaningful way, or facilitates understanding of the course material or topic. Responses should indicate that you have critically thought about the discussion topic and demonstrate that you can apply and articulate the knowledge you are learning. Your responses should be well organized and grammatically correct. Substantive responses do not just deliver opinions; they offer justification for those opinions and should cite sources when appropriate.

**Expected Quantity of Responses:** Full participation in each discussion requires that you respond to the initial discussion item and at least two student's discussion items. This is to help treat the discussion as a conversation. Think about how you would feel if you made an observation in a traditional classroom and no one responded. I recognize that for many of you your responses will not be as timely as others, however, you need to respond even if it is not timely.

**Written Assignments:** Make certain that these assignments are uploaded as MS-Word document file in the Assignments area so they can be included in the course grade book. Assignments emailed to me as an attachment will not be graded. Follow all instructions in the assignment upload area.

**UF Policies**

**University Policy on Accommodating Students with Disabilities:** Students requesting accommodation for disabilities must first register with the Dean of Students Office: <https://drc.dso.ufl.edu/> (Links to an external site.)Links to an external site.. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive, therefore, students should contact the office as soon as possible in the term for which they are seeking accommodations.

**University Policy on Academic Misconduct:** Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code:<https://catalog.ufl.edu/ugrad/1617/advising/info/student-honor-code.aspx> (Links to an external site.)Links to an external site.

**Netiquette: Communication Courtesy:** All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats. [Describe what is expected and what will occur as a result of improper behavior] <http://teach.ufl.edu/docs/NetiquetteGuideforOnlineCourses.pdf> (Links to an external site.)Links to an external site.

**Honesty Policy:** UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (<http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/> (Links to an external site.)Links to an external site.) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obliged to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor of in this class.
