## Course Description

The field practicum experience course offers a unique opportunity to help you integrate academic learning from the disaster management curriculum in an applied setting. Please see below for options that you may choose for your field practicum experience.

The disaster management professional is expected to be able to continually keep up to date with best practices. This requires a demonstrated desire and ability to keep up to date as well as to critique and apply best practices in the development of preparation, planning, responding, recovering, and mitigating disasters. This capstone experience is designed to provide you with an opportunity to demonstrate mastery of the program objectives and, in particular, the articulated desire and ability to use best practices. It is intended to provide integration of prior learning and to create a transferable knowledge and performance base. The course will provide you with the opportunity to participate in supervised disaster management work activities, or focused research, that provide experiential and research-based learning in the application and integration of the theory and skills acquired in earlier coursework.

**Prerequisite Knowledge and Skills:** Permission from Advisor and Director of Masters Programs.

**Purpose of Course:** The course provides the concepts of marketing, public relations and communication to the community.

**Course Goals and/or Objectives:** By the end of this course, students will:

1. Demonstrate mastery of the MSFES program objectives.
2. Provide an illustration of expertise pursuant to applying for either promotion or a new emergency management position.
3. Demonstrate a professional code of ethics.
4. Demonstrate a personally active involvement with the emergency management community.
5. Access, evaluate, and implement knowledge gained from the research literature.

## **Options for Field Practicum Experience**

### **Expanded Role**

For current emergency manager professionals: develop a new emergency management role within your current career that will provide you with a different perspective and expand your learning and comprehension of best practices of the emergency management field. This project and/or role cannot be a component of your assigned job duties.

### **Volunteer Work**

Obtain a volunteer or intern position in an emergency management setting (example: local emergency management office, local Red Cross office, UF EM, County EM office, etc.). The appropriate number of hours to be spent in this position per week will be determined in conjunction with the field experience practicum instructor and the volunteer organization.

### **Research Project or Paper for Publication**

With permission of the MSFES Program Coordinator, a student may complete a research project focused on a topic in disaster management. The research project shall be a disaster management related project previously approved by the program coordinator. The student shall complete a paper that overviews the project upon completion of the project. The research paper, upon completion, should result in a paper suitable for publication in a peer-reviewed journal in emergency management or a closely related field.

1. Research paper requirements.
2. Paper should be ready for submission to a peer-reviewed journal.
3. Paper length should be 20-25 pages.
4. Paper should have a minimum of 20-30 different reference citations.
5. Paper should start with a research goal.
6. Paper should include a literature review.
7. Paper must be submitted a minimum of two week before the final class meeting to provide time for review and corrections.
8. Research Project.
9. Project will be approved by program coordinator and practicum instructor.
10. Project will be based upon an emergency management-related topic.

### **Field Journal**

The field journal will be based on the field experience, research project or research paper. Field journals should be submitted online to the professor every week through the discussion board. The field journal should include a log of activities for tracking progress and learning. Care must be taken to maintain confidentiality in the journals.

1. Format:
  - a. Hours of work.
  - b. Learning goals.
  - c. Current progress, issues and accomplishments.
  - d. Any problems encountered and how the problems were resolved.
  - e. Review.
  - f. Course Meetings.

Practicum instructor will determine when and how often the class will connect online to discuss progress. During these course meetings, each student will report his/her current progress, issues, problems, problems solved and areas for improvement.

### **Timeline, Goals and Objectives**

The timeline, goals and objectives will be part of the first assignment for students. These items will be posted on the discussion board for review by the practicum instructor and the other students in the course. These items will be utilized as the roadmap for the duration of the practicum experience. Adjustments may be made with the permission of the practicum instructor.

1. **Timeline**: At the beginning of the practicum, the student shall establish a realistic timeline for completion of goals and objectives of the practicum. Students in a volunteer service capacity, such as an internship at the Red Cross, will need to coordinate this with their practicum instructor and onsite supervisor. Students completing research projects should establish a timeline for accomplishing and completing goals and objectives.
2. **Goals and Objectives**: Within the first week of the course, the student will establish a list of goals and objectives that he/she wants to accomplish during the duration of the practicum.

**How This Course Relates to the Student Learning Outcomes in the Fire & Emergency Services program:** Demonstrate strong verbal and written communication skills for leadership in fire and emergency services.

**Teaching Philosophy:** I am looking for students to demonstrate a working knowledge of the subject. You need to be creative when you complete your assignments but maintain a professional appearance of your work. Your work needs to be complete and in such a manner that someone can pick up your document and understand what you are trying to convey. Most of your work needs to be supported with research and cited in properly in APA format.

**Instructional Methods:** The course is designed for individual and group interactivity. It is important to post and respond to discussion questions in the course within the time frame allotted. This provides a learning environment by networking with other students in the course. The assignments are individual base to give you the opportunity to do a variety of activities, in

many cases, similar to what you will be doing in role as a leader in the emergency services profession.

## Course Policies

**Attendance Policy:** The course is designed in module format. You should check the site at least once a week. You are required to complete the assignments including discussion questions within the time period designated on the module. There will be meetings set up throughout the course. ## Grading Policies

The final grade will be an S/U

Grading will be based on the field journal, participation in online discussions, quality and outcome of project, research and/or paper and other requirements as explained above.

**Satisfactory/Unsatisfactory:** Grades of S and U are the only grades awarded in courses numbered 6940 (Practicum).

A grade of S is equal to a C (2.0) or better. Grades earned under the S-U option do not carry grade point values and are not computed in the University of Florida grade point average. Courses with a grade of S will count as credits earned in a degree program. Such grades are included in your permanent academic record and are reflected on the transcript.
