

Department of Landscape Architecture
College of Design, Construction & Planning
University of Florida

LAA4394 - Advance Design Communication

SPRING 2021

3 Credit

CIRAC Lab, Weil 408E & Online

Period 2-3 (8:30 - 10:25am) Tu & Th

Instructor: Huiqing "Hui" Kuang

Office: Arch 430

hkuang@ufl.edu

Office Hours: by appointment

Digital Media in Landscape Architecture

Course Overview:

Advances the design communication strategies introduced in Design Communications 1 & 2, this course will further develop skills in digital visualization and communication techniques. The course will explore digital media as a powerful tool in landscape architecture design and fabrication.

Students will learn working fluently and in an integrated way among Rhino and Adobe CC to produce high-quality perspectives and design diagrams. Student will also learn intermediate to advanced modeling skills in Rhino with V-Ray for Rhino. Students will then expose to digital fabrication techniques.

Course Objectives:

- To develop the skills in rendering in Rhino with V-Ray
- To develop the skills in produce photorealistic perspectives and design diagram for presentation.
- To develop skills in 3D modeling using Grasshopper in Rhino.
- To develop advanced skills in digital fabrication.
- To foster the ability of self-teaching, to keep up with the constantly updating digital technologies.

Prerequisite:

Students are required to have completed LAA2376c Design Communication 1; and LAA 2379c Design Communication 2. Students are expected to have essential training on AutoCAD, Rhino, Adobe CC; the ability to develop digital and hand graphics, and the skills developed in the prerequisite course.

Format:

Demonstrations, lectures and pin-ups (review previous weeks' assignments as a group) will be held on Tuesdays. Student work should be submitted to CANVAS before the beginning of section. Feedback will be provided verbally if necessary. Then workshops follow in the second section and on Thursdays. It is critical to attend and take notes.

Content:

All course content will be available through CANVAS, UF's online learning portal. Students may access this site at <https://lss.at.ufl.edu/> by logging in with their UF credentials. Under LAA4394, links to the course materials will be available on the course website including assignments, tutorials, reference, etc. All assignments are to be submitted to CANVAS unless otherwise indicated. Please email me through Canvas.

Grading:

Detailed grading criteria for each offering of this course can be found in the course handout for the specific instructor and semester.

Grading will adhere to the University of Florida Grade Policy:

Letter Grade	A	A-	B+	B	B-	C+	C	C-	D+	D	D-	F
Numeric Grade	100-93	92-90	89-87	86-83	82-80	79-77	76-73	72-70	69-67	66-63	62-60	59-0

Grading Percentages:

Participation	5%	Assignment #3_ Grasshopper Project 2	15%
Exercise i_ Rhino Modeling Review	5%	Assignment #4_ V-Ray Rendering Basic	15%
Assignment #1_ Grasshopper Basic	20%	Exercise ii_ Adobe After Effects Basic	5%
Assignment #2_ Grasshopper Project 1	15%	Assignment #5_ Final Project	20%

Assignment Components:

Participation

Includes completion of in-class exercises, positive contributions to class, and ACTIVE involvement in class discussions/critiques/tutorial demonstrations.

Assignment #1_ Grasshopper Basic

This assignment to introduce Grasshopper, a graphical algorithm editor tightly integrated with Rhino, for 3D modeling. Students will be asked to complete 5 exercises to get familiar with Grasshopper parameters, components and definition.

Assignment #2_ Grasshopper Project 1

This assignment is to develop Rhino+Grasshopper skills by design/modeling an object. Then students will use the equipment from UF Fab Lab to translate their design into a physical model.

Assignment #3_ Grasshopper Project 2

This assignment is to develop Rhino+Grasshopper skills by design/modeling a terrain. Then students will use the equipment from UF Fab Lab to translate their design into a physical model.

Assignment #4_ V-Ray Rendering Basic

This assignment is to develop professional rendering skill using rhino model, get to know V-Ray rendering plug-in: setting up lights and camera, applying materials, background etc. Student will render a view from a set of simple 3D geometry, such as a bioswale, a stormwater planter, etc. Then students will be asked to edit the rendering in Photoshop and Illustrator, to complete a sectional perspective to present the functional idea behind the view.

Assignment #5_ Final Project

This assignment is intended to foster the skills of the integration between various programs, AutoCAD, Rhino (V-Ray) and Adobe CC, etc. Option 1 is to advance Rhino + V-Ray and Adobe Photoshop skills. Students will be asked to produce a photorealism perspective, using Rhino for 3D modeling, V-Ray for rendering, from one of their own design studio projects. Option 2 is to advance Illustrator + After Effects and Adobe Photoshop skills. Students will be asked to produce an animation to explain/present one of their own design studio projects.

Assignment Submission:

All student work may be retained and used by the Department of Landscape Architecture. Physical models of student work for this course must be turned and displayed, per instructor's direction. Digital Copies of student work for this course must be turned in at the completion of each assignment. No grades will be computed into the final course grade until digital submissions have been turned in as requested. Please follow the directions given by the instructor as to how they will be submitted (Sakai, CD, PDF, word file, etc.). However, all files must be named as follows:

course# name project_student name. dwg/pdf/jpg/ai/3dm...

Example: 3352PlantDesAssig10_Smith

4ch 8ch 8ch 6ch

Use caps for separation

No spaces, hyphens, or underscoring

Class Attendance:

Attendance is required. Due to the nature of the course, active and engaged participation is expected and contributes to the student's final grade in the course.

In the event that a student is unable to attend class due to extenuating circumstances such as illness, or emergencies, the student shall notify the instructor prior (via email) to the start of class. Students must provide documentation regarding the absence (i.e. doctor's note). Failure to notify instructor of an intended absence could result in a full letter grade reduction for the final grade in the course. Three or more absences without notification or documentation will result in a failing grade for the course. Tardiness (more than 15 minutes after class begins) will count as a half absence. All decisions regarding approved or accepted requests for absence from class shall be at the discretion of the instructor.

Class Demeanor:

- Always make sure you have your work with you so you can follow instructor demonstrations. No accommodations or extensions will be made for students who are not prepared.
- Always make sure your laptop and software programs are up-to-date and functional, so you can work on your assignment in the class.
- In addition to having your project work with you, please make sure you are fully prepared with any other materials needed for class *before* class starts (i.e., mouse, print-outs, model materials, rolls of trace paper, drawing utensils, etc.).
- Please respect other students work.

Policy For Make-up Exams or Other Miss Work:

Late submissions are strongly discouraged. **Late submissions will receive a full letter grade deduction for each day past the deadline. Work submitted more than two weeks late will not be accepted.**

All assignments are due before the start of class unless otherwise noted.

If a student suffers undue hardship and is not able to meet a submission deadline, they may make a formal request for an extension to the course instructor **prior** to the deadline. The student must email the course instructor informing the instructor of the situation that warrants consideration for an exception (death in the family, serious illness) with documentation as required by the University.

IMPORTANT: Accommodations will NOT be made due to lost data, nor will there be granted any last-minute extensions on account of workload.

Evaluations:

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Disclaimer:

This syllabus represents our current plans and objectives. As we go through the semester, those plans may need to change to enhance the class learning opportunity. Such changes, communicated clearly, are not unusual and should be expected.

Laptop and Software Requirements:

See Appendix 1: Department of Landscape Architecture Laptop and Computer Requirements

Readings:

LinkedIn Learning are an incredible resource available to UF students and this class will take full advantage of them. We may have in-class “pop-quizzes” in which students will randomly be asked to demonstrate techniques; these techniques will be outlined as topics, demonstrated in class, and thoroughly explained in the tutorials.

Course Schedule:

Week	Contents	Assignments	Due	Format
Week 1	Rhino Modeling Review	Exercise i	Tue. Week 2	Online
Week 2-5	Grasshopper Basic	Assignment #1	Every Tue.	Online
Week 6-7	Grasshopper + Digital Fabrication 1	Assignment #2	Tue. Week 8	In Class
Week 8-9	Grasshopper + Digital Fabrication 2	Assignment #3	Tue. Week 10	In Class
Week 10-11	Rendering _ Sectional Diagram	Assignment #4	Tue. Week 12	In Class
Week 12	After Effects Basics	Exercise ii	Tue. Week 13	In Class
Week 13-15	Final Project	Assignment #5	Tue. Week 16	Online

UF POLICIES

COVID Related Practices for Face to Face Section

We will have face-to-face instructional sessions to accomplish the student learning objectives of this course. In response to COVID-19, the following policies and requirements are in place to maintain your learning environment and to enhance the safety of our in-classroom interactions.

- You are required to wear approved face coverings at all times during class and within buildings. Following and enforcing these policies and requirements are all of our responsibility. Failure to do so will lead to a report to the Office of Student Conduct and Conflict Resolution.
- This course has been assigned a physical classroom with enough capacity to maintain physical distancing (6 feet between individuals) requirements. Please utilize designated seats and maintain appropriate spacing between students. Please do not move desks or stations.
- Sanitizing supplies are available in the classroom if you wish to wipe down your desks prior to sitting down and at the end of the class.
- Follow your instructor's guidance on how to enter and exit the classroom. Practice physical distancing to the extent possible when entering and exiting the classroom.
- If you are experiencing COVID-19 symptoms ([Click here for guidance from the CDC on symptoms of coronavirus](#)), please use the UF Health screening system and follow the instructions on whether you are able to attend class. [Click here for UF Health guidance on what to do if you have been exposed to or are experiencing Covid-19 symptoms](#). Course materials will be provided to you with an excused absence, and you will be given a reasonable amount of time to make up work. [Find more information in the university attendance policies](#).

Privacy Related Issues for Online Course Recording

Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

Student Accommodations

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting <https://disability.ufl.edu/students/get-started/>. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Academic Honesty

The University requires all members of its community to be honest in all endeavors. When students enroll at UF they commit themselves to honesty and integrity. The faculty of Landscape Architecture fully expects you to adhere to the academic honesty guidelines you signed when you were admitted to UF. In completing the registration form at the University of Florida, every student has signed the following statement:

"I understand the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action up to and including expulsion from the University."

Furthermore, on work submitted for credit by all UF students, the following pledge is either required or implied:

"On my honor, I have neither given nor received unauthorized aid in doing this assignment."

It is to be assumed that all work will be completed independently unless the assignment is defined as a group project by the professor. This does not mean that students cannot help one another in learning material, but all work that is turned in must be independent work of that individual.

Misrepresentation or plagiarism, such as claiming another's work to be one's own, refers to graphic, images, and design work as well as written work. Submitting work from one course to fulfill the requirements of another (unless expressly allowed by the instructor) is also misrepresentation.

The University Honor Code and the Department of Landscape Architecture Academic Honesty Policy are to be followed to the letter. Any students found to have cheated, plagiarized, or otherwise violated the Honor Code in any assignment will be punished according to the severity of the act and may be referred to the Honor Court. It is each student's responsibility to report any infraction, and it is expected that each faculty will report all infractions as well.

For more information, see <http://www.chem.ufl.edu/~itl/honor.html> and the Department of Landscape Architecture Academic Honesty Policy.

Netiquette: Communication Courtesy

All members of the class are expected to follow the rules of common courtesy in all email messages, threaded discussions and chats. or a description of what is expected and what will occur as a result of improper behavior see <http://teach.ufl.edu/docs/NetiquetteGuideforOnlineCourses.pdf>.

Religious Holidays

The university calendar does not include observance of any religious holidays. The Florida Board of Governors and state law govern university policy regarding observance of religious holidays. Students shall be excused from class or other scheduled academic activity to observe a religious holy day of their faith with prior notification to the instructor. Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. Students shall not be penalized due to absence from class or other scheduled academic activity because of religious observances.

University's Syllabus Policy

The University's complete Syllabus Policy can be found at:
http://www.aa.ufl.edu/Data/Sites/18/media/policies/syllabi_policy.pdf

GETTING HELP

For issues with technical difficulties for E-learning, please contact the UF Help Desk at:

Learning-support@ufl.edu

(352) 392-HELP - select option 2

<https://lss.at.ufl.edu/help.shtml>

Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from LSS when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

Other resources are available at <http://www.distance.ufl.edu/getting-help> for:

Counseling and Wellness resources

Disability resources

Resources for handling student concerns and complaints

Library Help Desk support

Should you have any complaints with your experience in this course please visit <http://www.distance.ufl.edu/student-complaints> to submit a complaint.

Counseling Resources

Students experiencing crisis or personal problems that interfere with their general well-being are encouraged to utilize the university's counseling resources. Both the Counseling Center and Student Mental Health provide confidential counseling services at no cost for currently enrolled students. The Counseling Center is located at 301 Peabody Hall (next to Criser Hall). Student Mental Health is located on the second floor of the Student Health Services in the Infirmary. For further information on services and how to make an appointment, call the Counseling Center at 392-1575 or Student Mental Health at 392-1171. See the following websites for additional resources: Counseling Center: www.counsel.ufl.edu and Student Mental Health: <http://www.hsc.ufl.edu/shcc/smhs.htm>

U Matter, We Care

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.
