

IND 5937: Inclusive Design in the Built Environment

Syllabus, Fall 2021

3 Credit Hours

Instructor: **Shabboo Valipoor**

Email: sh.valipoor@ufl.edu

Office 350 I Hours: TBA

Phone: 352-294-1451

Meeting times: **Tuesdays | Periods 7-9 (1:55 – 4:55)**

Location: **ARCH 163**

Course Description

Statement:

The focus of this course is on the interaction between human ability (and dis-ability) and the design of the built environment based on values of equal opportunity and personal empowerment. Students will learn about the lived experiences of people with changing abilities and will explore the principles of inclusive design, universal design, and human-centered design. We will review studies that use innovative ways to improve accessibility, autonomy, and independence for all individuals. The course emphasizes the acquisition of evidence-based methods to identify and understand research methodologies based on students' direction and areas of specialization.

Objectives:

- Develop sensitivity to human variability in relation to the built environment
- Identify environmental barriers and facilitators impacting human functioning and quality of life
- Understand a range of research methods used to study inclusive design in the built environment
- Gain substantial knowledge of at least one special population and their environmental needs
- Practice the application of credible research findings to design proposals

Communications:

This course is taught mainly in a seminar format consisting of, but not limited to, lectures, presentations, assigned readings and video viewings, discussions, and writing.

Reading Materials:

No textbook is required for this course. All readings and other course materials will be available through Canvas.

Materials and Supplies Fees:

There are no materials and supplies fees required for this course during this semester.

Instructional Methods:

The following modules are designed to support the course objectives:

Module 1: Special Populations & Spatial Needs

In this module, students will gain a clear understanding of what inclusive design is and its importance in the built environment. Students will explore current knowledge on people with different impairments and their environmental needs. Several guest lecturers will complement course lectures and student exercises. Assigned readings will relate to the covered topic in each session, including aging population and adults with chronic health conditions, such as vision impairments, Dementia, Parkinson's, and Autism.

Module 2: Literature Analysis & Research Tools

In this module, students will review different research methods and tools used to study people with changing abilities and the way the physical environment may affect their health and quality of life. Students will read, analyze, and present relevant research papers. Towards the end of this module, students will select their focus area (one special population) and start mapping the literature on that area.

Module 3: Evidence-Based Design (EBD)

This module is focused on evidence-based design. DCP students with design background may apply the knowledge they gained through reviewing the literature into a design project. The site and project information will be provided by the instructor. Those who do not have design background can work on a critical literature review for their final project. The activities in this module may vary depending on the composition of the class and students' background and area of interest.

Grading Policies

Methods by which students will be evaluated and their grade determined

The final grade will be based on your performance in the following activities:

Category	Percentage of total grade
Participation, discussions, and exercises	10%
Presentations	15%
Research Brief	15%
Annotative bibliography	25%
Final project (Design or critical literature review depending on the student's discipline/background)	35%

Information on current UF grading policies for assigning grade points:

This course will follow the policies on the UF Undergraduate Catalog:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Grading Scale:

For further information on UF's Grading Policy, see: <http://www.isis.ufl.edu/minusgrades.html>

Grade	%	Grade points	Grade	%	Grade points
A	93-100	4.0	C	73-76.9	2.0
A-	90-92.9	3.67	C-	70-72.9	1.67
B+	87-89.9	3.33	D+	67-69.9	1.33
B	83-86.9	3.0	D	63-66.9	1.0
B-	80-82.9	2.67	D-	60-62.9	.67
C+	77-79.9	2.33	E	0-59	0.0

A Weekly Schedule of Topics and Assignments:

For detailed schedule of assignments and class activities, see course Schedule on Canvas. Disclaimer: This schedule represents the current plans and objectives. As we go through the semester, those plans may need to change to enhance the class learning opportunity.

Course Policies

Attendance & Participation:

Regular and punctual class attendance is essential, and no assigned work is excused because of absence. Requirements for class attendance and assignments are consistent with university policies that can be found at:

<https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>

Assignment Policy:

Assignments must be submitted to Canvas via the assignment page and any instructions detailed therein. Due dates are specified on the Canvas calendar. All assignments - completed or incomplete - must be turned in on the due date and will be graded as they stand. Late assignments will be deducted one full letter grade per day (or partial day).

Make-up Policy:

In cases of emergency where documented proof is provided, late assignments will be accepted but, depending on the situation, there may be a grade reduction. Depending on the case, students who can provide appropriate documentation for the late submission may be given a reasonable period of time to make up the late work.

Course Technology:

For technology related issues, the UF computing help desk can be reached at:

- <http://helpdesk.ufl.edu>
- (352) 392-HELP - select option 2

UF Policies

University Policy on Accommodating Students with Disabilities: Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center. Click on the link below to get started with the Disability Resource Center. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

<https://disability.ufl.edu/students/get-started/>

University Policy on Academic Conduct: UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The Honor Code (<http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor.

Getting Help

For issues with technical difficulties for Canvas, please contact the UF Help Desk at:

- <http://helpdesk.ufl.edu>
- (352) 392-HELP (4357)
- Walk-in: HUB 132 (check website for open hours)

Other resources are available at <http://www.distance.ufl.edu/getting-help> for:

- Counseling and Wellness resources
- Disability resources
- Resources for handling student concerns and complaints
- Library Help Desk support

Should you have any complaints with your experience in this course please visit <http://www.distance.ufl.edu/student-complaints> to submit a complaint.

Online course evaluation

Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at <https://evaluations.ufl.edu>. Evaluations are typically open during the last two or three weeks of the semesters, but students will be notified when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results>.

Schedule – Fall 2021

WK	Date	Module	Topics / Activities	Due
1	8/24	(1) Special Populations & Spatial Needs	Introduction to course ; What is inclusive design?	
2	8/31		Safety, Disability, Accessibility, & Universal Design	
3	9/7		Special population 1	
4	9/14		Special population 2	
5	9/21		Special population 3	
6	9/28	(2) Literature Analysis & Research Tools	Research Methods in Inclusive Design	Research brief
7	10/5		Assigned paper presentation	
8	10/12		Assigned paper presentation	Topic selection
9	10/19		Selected paper presentation	
10	10/26		Selected paper presentation	
11	11/2	(3) Evidence-Based Design (EBD)	Literature mapping & evidence-based design	Annotated bibliography Project selection
12	11/9		Research presentation - Discussion	
13	11/16		Research presentation - Discussion	
14	11/23		Design progress report	
15	11/30		Design progress report	
16	12/7		Final project presentation	Final project submission

* This calendar is a general outline of the course. The instructor reserves the right to alter the course in response to academic conditions and opportunities.
