URP 6341 (Section 04D7) – Urban Planning Project

Class Meet: Tuesdays and Thursdays, periods 5-7, 11:45 am – 2:45 pm
Classroom: FAC 202
Instructors: Dr. Ruth Steiner, office Arch 458, tel. (352) 294-1492, rsteiner@ufl.edu, Office Hours: Mondays 2:00 – 4:00pm or by appointment. Office hours will take place in person or via Zoom
Dr. Emre Tepe, office Arch 444, tel. (352) 294-1487, emretepe@ufl.edu, Office Hours: Tuesday 4:00 – 6:00pm or by appointment.

Credits: 6
Prerequisites: None; however, students are expected to have completed one semester of courses in Urban and Regional Planning or in other departments of the College of Design, Construction and Planning

Attendance: Mandatory, on time
Field visits: Site visits may be required for the final project
Resources: See “References & Resources” section
Course format: The course will be taught in classroom based on the schedule below. All material will be posted on e-Learning at: https://ufl.instructure.com/courses/435703

Description: University campuses are important investments that shape cities we live in. Academic institutions provide both benefits and challenges to cities. Due to their nature, universities introduce new technologies to their home cities. These technological innovations need to be introduced in a manner that builds and sustains good town-gown relationships. In recent years, many cities that house major research universities have collaborated with their host community on smart cities projects. As an example, UF Transportation Institute (UFTI) has partnered with the City of Gainesville and the Florida Department of Transportation on Smart City applications. The main goal of this Urban Planning Project will be to develop a community plan that provides equitable opportunities and benefits through ongoing and potential Smart City application to the residents in East Gainesville. In this project, we plan engage with community organization to understand impacts of ongoing university-initiated planning projects. Such community organizations can provide valuable information for planners. For example, First Community Development Corporation in developing its plans for the targeted activities in East Gainesville. Community Development Corporations (CDCs) are “non-profit, community-based organizations focused on revitalizing the areas in which they are located, typically low-income, underserved neighborhoods that have
experienced significant disinvestment” (Democracy Collaborative, n. d.). Over the last two decades, the City of Gainesville and its partners have been engaged in several planning processes, including an ongoing update to the City’s Comprehensive Plan, to improve the neighborhoods in East Gainesville. In 2003, the Metropolitan Transportation Planning Organization (MTPO) for the Gainesville Urbanized Area partnered with the City of Gainesville, Alachua County and the Florida Department of Transportation to complete Plan East Gainesville and in 2009 they completed a study on *Designing the Waldo Road Corridor: Plan East Gainesville Implementation Strategies for the Gateway to Gainesville and the University of Florida*. In March 2020, the Gainesville City Commission approved the Gainesville Community Reinvestment Area (GCRA) 10-Year Reinvestment Plan. In 2017, the University of Florida adopted a Strategic Development Plan that emphasizes the New American City and includes actions to create stronger connections between the University and the City, to engage in smart city planning, to concentrate on-campus development to the east, preserve strong neighborhoods, and promote stewardship of its physical environment (University of Florida, 2017). In February 2021, the First Community Development Corporation was created to focus “on education, healthcare social programs and affordable housing” (Syed, 2021). In this course we will work with Gainesville’s First CDC to assistant them in their planning efforts in East Gainesville. The scope of work could range from identifying key parcels for activities in East Gainesville, development of data to support ongoing activities, and/or assistance in providing research on other identified priorities of the First CDC.

**Course Objectives**

This course will use the East of Gainesville neighborhoods to explore the ideas of working with the First Community Development Corporation to understand the opportunities for affordable housing and accessible services for all residents of the city.

The purpose of this course will be to understand opportunities for the eastern side of Gainesville to enhance affordable housing and accessible services to support the needs of low-income households in East Gainesville. The issue now is: given existing conditions and the information and resources available, how can we best to identify and address the needs in the community. The class will first review and assess pertinent planning documents and support materials. The work of the studio will then turn toward outlining a proposal to address development pressures, opportunities and challenges. This activity will include developing a work plan, assessing data and planning materials, identifying opportunities and constraints, designing specific alternatives and supporting rationales, and recommending a course of action for the city to follow to address the needs for service accessibility and housing affordability.

The studio will be organized as a series of exercises that eventually leads to the development of a report supporting and outlining specific recommendations as outlined above. Thus, the final product of this course will be a professional quality group report. This document will include several sections that will be developed throughout the semester by each student (individually and in groups): (1) background and inventory; (2) policy and plan review; (3) opportunities and constraints; (4) assessment of best practices; and (5) a plan outlining viable funding sources, responsible agencies, and a timeline for implementation based on assessment of planning documents and fieldwork. Each section will include both written and visual components. Students will also be
required to present the final recommendations in a public meeting at the end of the semester to the community, city planners, and other interested parties.

**Structure of the Course:**
The purpose of this course is for students to complete an urban planning project. Thus, this course will focus on doing planning rather than learning about doing planning. This course will be run as a workshop with students actively involved in developing the agenda and the products for the course. The instructor will act as the project manager on this planning project and the students will be the project team. Thus, students will participate in making decisions as a group on the roles taken in the group. The instructor will provide a basic structure and a set of requirements for each of the assignments, which will require some combination of written, visual, and oral presentations. The class meeting times will be used for sharing information and for members to coordinate activities, work on aspects of the project, and review progress.

**Student Responsibility and Grading:**
The most important requirements for the course are CLASS ATTENDANCE and CLASS PARTICIPATION. Because much of the work in this class is accomplished during class meetings, your attendance and participation are extremely important. You will be allowed one unexcused absence from class during the semester. With your second unexcused absence, your grade may be lowered by one grade. Additional absences above the second unexcused absence may justify expulsion from the class and a failing grade.

The class is currently scheduled to meet on Tuesdays and Thursdays from 11:45 am - 2:45 pm. Because this class involves significant group work, additional meeting times may be required to complete the course assignments.

The final product of this course will be a report that documents the plans of this studio for addressing the needs for affordable housing and accessible services. While the East side of Gainesville will be the primary focus of the course, we may need to consider the broader community to understand the nature of these relationships. The question we will seek to answer for community leaders is, “What does East Gainesville need to do to provide access to affordable housing and services for the residents of the community consistent with the goals of Smart City planning?” This document will include several sections that will be developed throughout the semester: (1) background and inventory; (2) policy and plan review; (3) opportunities and constraints; (4) assessment of best practices applicable to the area; and (5) final recommendations. This document will include both written and visual presentations for each of these sections. Students will also be required to present the final plan in a public meeting at the end of the semester.

Each student will prepare four assignments and then work together in a group to produce the final document. Because it can sometimes be difficult to separate individual effort from the overall group effort, each student will also be required to keep a journal of all their work in the course. The journal will do as the title suggests, log the activities in which each student engages throughout the semester. Thus, the journal should include the observations of the student, documentation of telephone calls, class
discussion, and interviews, draft ideas used to develop the conceptual design, notes from attending meetings, and all other items related to the project. The group participation portion of the grade will include participation in activities that the group determines necessary to gather information for the use in the preparation of the draft, final report, and presentation. Examples include scheduling speakers, preparing drawings, interviewing experts, and other activities to support the development of a plan to address transportation access and housing affordability.

Grades will be based on the four assignments, the journal, and the final report and presentation. The final document will be completed in two parts: a draft of the background, policy and plan review, and the opportunities and constraints will be required following completion of that section of the course. The final report will be required at the end of the course.

Assignment 1: Background and Inventory (group) 10%
Assignment 2: Policy and Plan Review (group and individual) 10%
Assignment 3: Opportunities and Constraints (individual) 10%
Assignment 4: Assessment of applicable Best Practices with proposed infill concepts for the area (group) 5%
Written Draft of Background, Policy and Plan Review, and Opportunities and Constraints 10%
Assignment 5: Final Report and Presentation 35%
Group Participation* 10%
Individual Notebook 10%

*A portion of this grade will be based on input from other members of the class. The rest will be based upon class participation and observations of the instructor about the participation of each student in the overall group effort.

We expect that all graduate students should be able to accomplish the basic requirements for the course—a “B” grade, but do not hesitate to mark lower when the student does not meet a minimal standard for graduate-level work. “A” grades require performance beyond the minimum or average—e.g., quality, depth, synthesis of ideas, originality or creativity. Meeting deadlines matters too! Even though deadlines differ individually, each must be honored or the grade will be lowered accordingly. The University of Florida allows us to give the following grades: “A”, “B+”, “B”, etc.

**University of Florida grading scale**

**Non-Punitive Grades (not counted in GPA)**

- W – Withdraw
- U – Unsatisfactory
- H - Deferred

**Failing Grades (counted in GPA)**

- N – No grade reported
- E – Failure
- WF – Withdrew Failing
- NG – No grade reported
- I – Incomplete
**Class Participation Considerations**

Students will be expected to be prepared for class and participate in the class discussion and deliberations. The following rules apply to the discussion in class:

- Be critical of ideas, not people
- Listen to everyone’s ideas even if you don’t agree
- Try to understand all sides of an issue
- Talk through issues, don’t try to change other’s minds
- Stay focused; stick to the subject
- Avoid overly long stories, anecdotes, or examples
- Don’t dominate the conversation; let all participate
- Remember there are no right answers; most policies involve tradeoffs.

In summary, good participation requires careful listening, responding, asking questions and making comments to others in the classroom. If you are not comfortable talking in class, make an effort to talk to the instructors during office hours.

Electronic technology (laptops, netbooks, cellphones, etc.) are a part of our daily activities. The challenge is to ensure that they take a proper role in teaching and learning. Because this course is designed to maximize participation, students should plan to minimize the interference of technology in the classroom. Students will turn off cellphone and other handheld, tablet and other devices that are not a direct part of the educational experience in the classroom. Students can use laptops, tablets, and netbooks as long as they are used to take notes related to the class discussion. Any student who misuses technology may receive a lower or failing grade, or be kicked out of the class. The instructors reserve the right to collect and set aside technology if it distracts from what is happening in the classroom.

**Use of Reference Material**

In written work, the format of all references should follow the format of used by the Journal of the American Planning Association (JAPA) and based upon Publication Manual of the American Psychological Association, Sixth Edition (2010) (see also, [http://www.apastyle.org/](http://www.apastyle.org/), and The Chicago Manual of Style, 16th Edition (see also,[http://www.chicagomanualofstyle.org/home.html](http://www.chicagomanualofstyle.org/home.html)). This method is called the author-date system. Citations should appear in the text as follows: (Giuliano & Hanson, 2017) when using an idea from the text; or (Hanson, 2017: 10) when using a specific quote on the indicated page (in this case, page 10). A good source of information on the APA format can be found on the website of the Writing Center at the University of Wisconsin – Madison: [http://writing.wisc.edu/Handbook/DocAPA.html](http://writing.wisc.edu/Handbook/DocAPA.html), under the “Frequently Asked Questions” about the APA Style at: [http://www.apastyle.org/learn/faqs](http://www.apastyle.org/learn/faqs), and through the “Style Guide Resources” link on the UF Library page ([http://www.uflib.ufl.edu/tutorials/research.html](http://www.uflib.ufl.edu/tutorials/research.html)). Students from departments other than Urban and Regional Planning may use a commonly accepted format for citations from their own field; please discuss this option with the instructors before using other citation formats in assignments.
**Assistance for Writing Papers**

The online resources to assist you in writing are extensive. The Dial Center for Written and Oral Communication ([http://cwoc.ufl.edu](http://cwoc.ufl.edu)), the University Writing Program ([https://writing.ufl.edu](https://writing.ufl.edu)), and the Smathers Library ([http://www.uflib.ufl.edu/tutorials/research.html](http://www.uflib.ufl.edu/tutorials/research.html)) at the University of Florida can assist you in different aspects of writing. You can use the Writing Center to get one-on-one help on every area of composition from basic grammar and mechanics to topics like essay organization, style, and argument. The Dial Center provides assistance on oral communications through their Public Speaking Lab. Library Support ([http://cms.uflib.ufl.edu/ask](http://cms.uflib.ufl.edu/ask)) provides a variety of resources on conducting research through a variety of methods (e.g., chat, text, email, and phone).

Many other universities offer online handbooks on writing. The following are particularly useful: the University of North Carolina at Chapel Hill ([http://writingcenter.unc.edu/handouts/](http://writingcenter.unc.edu/handouts/)), the University of Wisconsin ([https://writing.wisc.edu/handbook/](https://writing.wisc.edu/handbook/)), and Purdue University ([http://owl.english.purdue.edu/](http://owl.english.purdue.edu/)). I found the following handouts particularly helpful while editing papers: [http://writing.wisc.edu/Handbook/CommonErrors.html](http://writing.wisc.edu/Handbook/CommonErrors.html) and [https://writing.wisc.edu/handbook/style/](https://writing.wisc.edu/handbook/style/). The online handbooks described above discuss many aspects of writing papers. Students at the graduate level should be prepared to write a critical argument rather than simply describe relationships. If you have any questions about what is expected at the graduate level, please see the instructor.

**Teaching Philosophy:**

The assignments of this course and all the courses that we teach have been designed to allow students to practice the kinds of skills they will use as planning professionals. In particular, this course is designed to introduce students to how to work on urban planning problems. The exercises, and the structure of the course itself, have been designed to develop the following skills that can be important to professional practice: (1) *data collection and analysis*; (2) *verbal, written, and visual communication skills*; (3) *critical problem solving*; (4) *creativity*; and (5) *working in groups*.

During the early part of the semester, students will gather and review a variety of written information related to the area of study (such as planning documents, regulations, etc.). They will also observe the existing conditions in the area. Using this information, they will conduct an analysis to gain an understanding of the opportunities and constraints and development activity in the area. Students will develop their verbal, written, and visual communication skills throughout the semester. Each student will make at least three presentations to members of the class and invited guests who will assist in interpreting the meaning of the data and the understanding of the conceptual designs. While the instructors recognize that not all of the students are well skilled in visual representation, we will encourage you to try, and allow you to emphasize your other skills throughout the course. Each student will be asked to exercise their critical *problem-solving skills and creativity* throughout the course in order to solve the problems. Students will need to challenge the assumptions of what can and cannot be accomplished in their selected areas, and they need to think broadly and creatively about how to solve some the challenges in their area. Finally, students will learn how to work in groups. Throughout the semester, students will need to organize their activities...
in the course to take advantage of the existing skills of course members to accomplish the agreed upon goal. At the same time, students need to feel free to develop skills in areas where they are not comfortable. Thus, the challenge becomes one of balancing the need to develop new skills with the needs of the group to complete aspects of the project efficiently.

Consistent with the expectations of professional conduct in this course, all final written assignments must be typed. In the journal, handwritten notes of meetings, interviews, observations, and other drafts of concepts will be accepted.

Changes
As the course develops, we may make changes in the readings or assignments, and scheduling. If there are theories, issues, or readings that you want included in this course, please let us know. This is your course, and we will make time for any new ideas, within the limits of reason and time.

Student Honor Code and Academic Honesty:
Students MUST follow the University’s policy regarding cheating and the use of copyrighted materials. Please consult the graduate catalog or visit http://www.dso.ufl.edu/stg/ for more information.

Help for Student/Accommodations for Students with Disabilities
The instructors will respect the needs for accommodations for students with disabilities consistent with the University’s policy on such accommodations. Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc) by providing appropriate documentation. Once registered, students will receive an accommodation letter that must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester. We are happy to provide reasonable accommodations for students who register with the DRC and ask that students inform the instructors of any request no later than the end of the second week of the course.

At times students may experience periods of increased stress when challenges related to decisions, goals and relationships arise. Often these experiences are accompanied by thoughts and emotions that produce sadness, anxiety, frustration, anger and confusion. If you are experiencing excessive stress in your life that are affecting your ability to meet the deadlines for this course, please speak to the instructor or contact the Counseling and Wellness Center (http://www.counseling.ufl.edu/cwc/Default.aspx; (352) 392-1575) to make an appointment or contact the University Police Department at 352-392-1111 or 911 for emergencies. If you observe of know of anyone in distress, please reach out to U Matter, We Care (www.umatter.ufl.edu), 352-294-CARE (2273) or #UMatterUF

College of Design, Construction and Planning – Spray Painting Policy:
Spray painting, or the use of any other sort of aerosol spray, is not allowed in the Architecture Building, Rinker Hall and in Fine Arts C, except within the spray booth found in Room 211 of Fine Arts C. Students found in violation of this policy will be
referred to the Dean of Students for disciplinary action.

**References & Resources**

**Textbook:**

**Readings:**
In addition to the required textbook, we have identified the following sources that will be helpful in the course and have requested that the Architecture and Fine Arts Library order them:

Smart Cities Knowledge Collection, American Planning Association, https://planning.org/knowledgebase/smartcities/ (Note: you will need to create an account to access reading materials)

Web Resources
- University of Florida (Library homepage): http://www.uflib.ufl.edu
- VPN connection (Off campus access): https://connect.ufl.edu/it/wiki/Pages/glvpn.aspx
- Library Tools and Mobile Apps (smart phones, RSS feeds, etc.): http://www.uflib.ufl.edu/tools

Computer & Software Resources
1. Canvas (e-Learning)
   This course will be taught in the classroom. The course will be supplemented with online support provided by e-Learning in Canvas. The Canvas system will be used to post all course materials - lectures, assignments, readings, grades, and other materials. Canvas can be accessed at https://elearning.ufl.edu/
   *For issues with technical difficulties for E-learning in Canvas, please contact the UF Help Desk at: Learning-support@ufl.edu or (352) 392-HELP - select option 2 or https://lss.at.ufl.edu/help.shtml
   ** Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from LSS when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

2. Software
   Students are required to have a computer. The software expected to be used in this class for presentation and visualization needs include ArcGIS, Sketchup Pro, SPSS, GIMP or Photoshop, Microsoft Word, Microsoft PowerPoint.

   It’s best to have this software installed on your computer. You can obtain the software as follows:
• ArcGIS Desktop - Request a Student Copy at [https://www.geoplan.ufl.edu/software/arcgis-desktop/](https://www.geoplan.ufl.edu/software/arcgis-desktop/)
• SketchUp Make 2017 - Downloads for free at [http://www.sketchup.com/download/all](http://www.sketchup.com/download/all)

This software is also available in UF Apps at [https://apps.ufl.edu/](https://apps.ufl.edu/).
*For any assistance with UF Apps contact UF Computing Help Desk. For any issue that happens to most students and can reproduced submit a feedback ticket at [http://info.apps.ufl.edu/feedback/](http://info.apps.ufl.edu/feedback/)

3. **Learning software:**
   Use [https://elearning.ufl.edu/supported-services/linkedin-learning/](https://elearning.ufl.edu/supported-services/linkedin-learning/) available for free through e-Learning.

4. **GIS data, and Aerial imagery**

**Getting Help:**
For issues with technical difficulties for Canvas, please contact the UF Help Desk at:
• [http://helpdesk.ufl.edu](http://helpdesk.ufl.edu)
• (352) 392-HELP (4357)
• Walk-in: HUB 132

Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from the Help Desk when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

**Campus Resources:**
Health and Wellness
• *U Matter, We Care*: If you or someone you know is in distress, please contact [umatter@ufl.edu](mailto:umatter@ufl.edu), 352-392-1575, or visit [U Matter, We Care website](http://www.counseling.ufl.edu) to refer or report a concern and a team member will reach out to the student in distress.
• **Counseling and Wellness Center**: Visit the Counseling and Wellness Center website or call 352-392-1575 for information on crisis services as well as non-crisis services.

• **Student Health Care Center**: Call 352-392-1161 for 24/7 information to help you find the care you need, or visit the Student Health Care Center website.

• **University Police Department**: Visit UF Police Department website or call 352-392-1111 (or 9-1-1 for emergencies).

• **UF Health Shands Emergency Room / Trauma Center**: For immediate medical care call 352-733-0111 or go to the emergency room at 1515 SW Archer Road, Gainesville, FL 32608; Visit the UF Health Emergency Room and Trauma Center website.

**Academic Resource**

• **E-learning technical support**: Contact the UF Computing Help Desk at 352-392-4357 or via e-mail at helpdesk@ufl.edu.

• **Career Connections Center**: Reitz Union Suite 1300, 352-392-1601. Career assistance and counseling services.

• **Library Support**: Various ways to receive assistance with respect to using the libraries or finding resources.

• **Teaching Center**: Broward Hall, 352-392-2010 or to make an appointment 352-392-6420. General study skills and tutoring.

• **Writing Studio**: 2215 Turlington Hall, 352-846-1138. Help brainstorming, formatting, and writing papers.

• **Student Complaints On-Campus**: Visit the Student Honor Code and Student Conduct Code webpage for more information.

• **On-Line Students Complaints**: View the Distance Learning Student Complaint Process.

**Course Schedule**

Listed below is a general outline of the course that includes the deadlines for the course. As the weeks pass, we will update this schedule including relevant public hearings and neighborhood meetings that we will urge you to attend. In addition, guest speakers and the instructors will occasionally present lectures throughout the semester relevant to the work of the studio. Additional reading will be assigned as we proceed throughout the semester. Thus, the schedule will become more specific as we proceed through the semester.

**Tuesday, August 24**
Introduction to the Course

**Thursday, August 26**
Background and Inventory
Presentation by TBD

**Assignment 1**: Background and Inventory handed out.
Tuesday, August 31
Background and Inventory
Understanding the community – The Basics – Census and Map Data.

Thursday, September 2
Work Session – Background and Inventory
Florida APA Conference

Tuesday, September 7
Work Session – Background and Inventory

Thursday, September 9
Work Session – discussing and reviewing data gathered.

Tuesday, September 14
Work Session – Background and Inventory

Thursday, September 16
Work Session: Background and Inventory

Tuesday, September 21
In-studio presentation of Assignment 1: Background and Inventory
Assignment 2: Policy and Plan Review handed out

Thursday, September 23
Policy and Plan Review – Getting Organized

Tuesday, September 28
Policy and Plan Review- Work Session

Thursday, September 30
Policy and Plan Review- Work Session

Tuesday, October 5
Policy and Plan Review
Policy and Plan Review (assignment 2) due – in-studio presentation and class discussion.

Thursday, October 7
Opportunities and Constraints—Getting Organized.
Assignment 3: Opportunities and Constraints handed out.
Instructors participating in Association of Collegiate Schools of Planning virtual conference.

Tuesday, October 12
Opportunities and Constraints – Work Session
Thursday, October 14  
Opportunities and Constraints – Work Session

Tuesday, October 19  
Opportunities and Constraints – Discussion and Work Session.

Thursday, October 21  
Opportunities and Constraints – Work Session

Tuesday, October 26  
In-studio presentation of Opportunities and Constraints (Assignment 3).  
Interim presentation of Individual Proposals

Thursday, October 28  
Assessment of applicable Best Practices.  Issues associated with financing development.  
Assignment 4: Assessment of applicable Best Practices handed out.

Tuesday, November 2  

Thursday, November 4  

Tuesday, November 9  

Thursday, November 11  
Veterans Day

Tuesday, November 16  
Students’ report – Studio progress report.

Thursday, November 18  

Tuesday, November 23  
Final Report work session.

Thursday, November 25  
Thanksgiving holiday – no class.

Tuesday, November 30  
Final Report work session.

Tuesday, December 2  
Run-through of Presentation.  
Individual notebooks due at 4:00 p.m.
UF Policies:

Student evaluations: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Click here for guidance on how to give feedback in a professional and respectful manner. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via uf.bluera.com/uf/. Summaries of course evaluation results are available to students here.

Add/Drop policy: University policies on such matters as add/drop, incomplete, academic probation, termination of enrollment, reinstatement, and other expectations or procedures can be found in the graduate student handbook and at the Dean of Students website.

COVID related practices: We will have face-to-face instructional sessions to accomplish the student learning objectives of this course. In response to COVID-19, the following policies and requirements are in place to maintain your learning environment and to enhance the safety of our in-classroom interactions.

- You are required to wear approved face coverings at all times during class and within buildings. Following and enforcing these policies and requirements are all of our responsibility. Failure to do so will lead to a report to the Office of Student Conduct and Conflict Resolution.
- This course has been assigned a physical classroom with enough capacity to maintain physical distancing (6 feet between individuals) requirements. Please utilize designated seats and maintain appropriate spacing between students. Please do not move desks or stations.
- Sanitizing supplies are available in the classroom if you wish to wipe down your desks prior to sitting down and at the end of the class.
- Follow your instructor’s guidance on how to enter and exit the classroom. Practice physical distancing to the extent possible when entering and exiting the classroom.
- If you are experiencing COVID-19 symptoms (Click here for guidance from the CDC on symptoms of coronavirus), please use the UF Health screening system and follow the instructions on whether you are able to attend class. Click here for UF Health guidance on what to do if you have been exposed to or are experiencing Covid-19 symptoms.
  - Course materials will be provided to you with an excused absence, and you will be given a reasonable amount of time to make up work. Find more information in the university attendance policies.
