LANDSCAPE MODELING

Overview:
The impact of the work we do as landscape architect depends on our ability to visually convey our ideas to others (teammates, clients, consultants, the public). The means we have at our disposal are pens/pencils, paper, models and computers through which we explore landscapes conceptually and physically.

Advances the design communication strategies introduced in Design Communications 1 by further developing skills in digital visualization and communication techniques. The course will introduce measured drawings and 2D digital representation techniques through AutoCAD. Students then progress to working on Rhino 3D modeling and digital fabrication. Rather than teaching individual software programs, this course emphasizes the integration among them. Students will learn working fluently and in an integrated way amongst Hand-sketching, AutoCAD, Adobe Creative Suites, Rhino and digital fabrication.

Objectives:
- To develop the skills in 2D measured drawing through AutoCAD
- To develop the skills in 3D modeling through Rhino
- To advance skills in integration among computer programs and hand-sketching
- To develop skills in digital fabrication.
- To foster the ability of self-teaching, to keep up with the constantly updating digital technologies.

Prerequisite:
LAA2376c Design Communication 1

Format:
On Mondays and Fridays, demonstrations will be held, and assignments will be introduced in class. It is critical to attend and take notes. And we will review previous weeks’ assignments as a group. Feedback will be provided verbally if necessary. On Wednesdays we will hold online or Fab Lab workshops.

DCP Fab Lab Membership:
Students are responded for a one-month FabLab membership ($39.68) and the expense of model making materials (estimated $50). In order to operate the laser cutting machines, students are required to attend orientation (date & time, TBD). Assignments require FabLab use are highlighted in yellow.
Fab Lab is located just off campus in the Infinity Hall (978 SW 2nd Ave - Room 117). [https://fablab.arts.ufl.edu/](https://fablab.arts.ufl.edu/)

Content:
All course content will be available through CANVAS, UF’s online learning portal. Students may access this site at [https://lss.at.ufl.edu/](https://lss.at.ufl.edu/) by logging in with their UF credentials. Under LAA2379c, links to the course materials will be available on the course website including assignments, tutorials, reference, etc. All assignments are to be submitted to CANVAS unless otherwise indicated. Please email me through Canvas.

Grading:
Detailed grading criteria for each offering of this course can be found in the course handout for the specific instructor and semester.

Grading will adhere to the University of Florida Grade Policy:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>A</th>
<th>A-</th>
<th>B+</th>
<th>B</th>
<th>B-</th>
<th>C+</th>
<th>C</th>
<th>C-</th>
<th>D+</th>
<th>D</th>
<th>D-</th>
<th>F</th>
</tr>
</thead>
<tbody>
<tr>
<td>Numeric Grade</td>
<td>100-93</td>
<td>92-90</td>
<td>89-87</td>
<td>86-83</td>
<td>82-80</td>
<td>79-77</td>
<td>76-73</td>
<td>72-70</td>
<td>69-67</td>
<td>66-63</td>
<td>62-60</td>
<td>59-0</td>
</tr>
</tbody>
</table>

According to Departmental Policy, Landscape Architecture majors must receive a C or better to move forward. Any grade lower than a C will require that the course be taken over again.

Grading Percentages:

</tr>
</tbody>
</table>

Assignment Components:

**Participation**
Includes completion of in-class exercises, positive contributions to class, and ACTIVE involvement in class discussions/critiques/tutorial demonstrations.

**Assignment #1_AutoCAD Basic**
This assignment is to warm up AutoCAD basic skills and tools: model space and paper space, ctb, layer, block, drafting, etc. Student will learn how to transfer a hand sketch to a CAD document.

**Assignment #2_AutoCAD to Adobe Illustrator**
This assignment is to learn the interface between AutoCAD and Adobe Illustrator, by creating an illustrator plan for students’ studio project. This assignment is intended to foster drafting on AutoCAD and graphic skills in Adobe Illustrator.
Assignment #3_AutoCAD 2D Modeling
This assignment is to advance AutoCAD skills, such as, xref, ucs, scale, labeling and hatching, etc, by completing a landscape plan and section in CAD.

Assignment #4_Rhino Essential operations
This assignment is to develop navigational abilities through Rhino interface; to utilize basic orientation techniques, such as planar & poly-surface creation, manipulation & extraction operations, etc

Assignment #5_AutoCAD to Laser Cutting
This assignment is to learn transferring an AutoCAD drawing to a sophisticated physical model using laser cutters at DCP Fab Lab. This assignment is intended to foster AutoCAD drafting skills.

Assignment #6_Rhino to Laser Cutting
This assignment is to explore digital modeling and fabrication, especially to experiment the benefit of Rhino, that digital models can be seamlessly translated into scaled physical models, prototypes or construction documents, using laser cutters.

Assignment #7_Rhino Complex generations
This assignment to generate complex surfaces; to explore free-form modeling techniques; to edit surface by manipulating control points, etc.

Assignment #8_CAD to Rhino and 3D printing
This assignment to explore Integration between AutoCAD and Rhino modeling and rendering, then 3D printing.

Assignment Submission:
All student work may be retained and used by the Department of Landscape Architecture. Digital Copies of student work for this course must be turned in at the completion of each assignment. No grades will be computed into the final course grade until digital submissions have been turned in as requested. Please follow the directions given by the instructor as to how they will be submitted (Sakai, CD, PDF, word file, etc.). However, all files must be named as follows:

```
course# name project_student name. dwg/pdf/jpg/ai/3dm...
```

Example: 3352PlantDesAssig10_Smith

4ch 8ch 8ch 6ch

Use caps for separation
No spaces, hyphens, or underscoring

Class Attendance:
Attendance is required. Due to the nature of the course, active and engaged participation is expected and contributes to the student's final grade in the course.

In the event that a student is unable to attend class due to extenuating circumstances such as illness, or emergencies, the student shall notify the instructor as soon as possible. Students must provide documentation regarding the absence (i.e. doctor's note). Failure to notify instructor of an absence could result in a full letter grade reduction for the final grade in the course. Three or more absences without notification or documentation will result in a failing grade for the course.

Tardiness (more than 15 minutes after class begins) will count as a half absence. All decisions regarding approved or accepted requests for absence from class shall be at the discretion of the instructor. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies.
Class Demeanor:
Always make sure you have your work with you so you can follow instructor demonstrations. No accommodations or extensions will be made for students who are not prepared. Always make sure your laptop and software programs are up-to-date and functional. In addition to having your project work with you, please make sure you are fully prepared with any other materials needed for class before class starts (i.e., mouse, print-outs, model materials, rolls of trace paper, drawing utensils, etc.). Please respect other students’ work.

Policy For Make-up Exams or Other Miss Work:
Late submissions are strongly discouraged. Late submissions will receive a full letter grade deduction for each day past the deadline. Work submitted more than two weeks late will not be accepted. All assignments (both in digital and hardcopy form) are due by the end of Sunday, unless otherwise noted.

IMPORTANT: Accommodations will NOT be made due to lost data, nor will there be granted any last-minute extensions on account of workload.

Privacy Related Issues for Online Course Recording
Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

Evaluations:
Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluerica.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

Disclaimer:
This syllabus represents our current plans and objectives. As we go through the semester, those plans may need to change to enhance the class learning opportunity. Such changes, communicated clearly, are not unusual and should be expected.

Laptop and Software Requirements:
See Appendix 1: Department of Landscape Architecture Laptop and Computer Requirements
Readings:
LinkedIn Learning are an incredible resource available to UF students and this class will take full advantage of them. We may have in-class “pop-quizzes” in which students will randomly be asked to demonstrate techniques; these techniques will be outlined as topics, demonstrated in class, and thoroughly explained in the tutorials.

1. AutoCAD 2021 Essential Training
2. Rhino 6 Essential Training
3. Rhino Project: Architectural Site & Envelope

Books
3. Elliot Gindis, Up and running with AutoCAD 2014: 2D and 3D drawing and modeling (online)

Advance Reading
1. J. Walliss & H. Rahmann, Landscape architecture and digital technologies: re-conceptualizing design and making, Abingdon 2016
3. Daniel Tal, Sketchup for site design : a guide to modeling site plans, terrain and architecture, Wiley 2016

Software:
Adobe Creative Cloud: Photoshop, InDesign & Illustrator
AutoCAD 2020 (or higher)
Rhino 6 (or higher)

UF POLICIES

Student Accommodations
Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting https://disability.ufl.edu/students/get-started/. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Academic Honesty
The University requires all members of its community to be honest in all endeavors. When students enroll at UF they commit themselves to honesty and integrity. The faculty of Landscape Architecture fully expects you to adhere to the academic honesty guidelines you signed when you were admitted to UF. In completing the registration form at the University of Florida, every student has signed the following statement:

“I understand the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action up to and including expulsion from the University.”

Furthermore, on work submitted for credit by all UF students, the following pledge is either required or implied:

“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

It is to be assumed that all work will be completed independently unless the assignment is defined as a group project by the professor. This does not mean that students cannot help one another in learning material, but all work that is turned in must be independent work of that individual.

Misrepresentation or plagiarism, such as claiming another’s work to be one’s own, refers to graphic, images, and design work as well as written work. Submitting work from one course to fulfill the requirements of another (unless expressly allowed by the instructor) is also misrepresentation.

The University Honor Code and the Department of Landscape Architecture Academic Honesty Policy are to be followed to the letter. Any students found to have cheated, plagiarized, or otherwise violated the Honor Code in any assignment will be punished according to the severity of the act and may be referred to the Honor Court. It is each student’s responsibility to report any infraction, and it is expected that each faculty will report all infractions as well.

For more information, see http://www.chem.ufl.edu/~itt/honor.html and the Department of Landscape Architecture Academic Honesty Policy.

Netiquette: Communication Courtesy
All members of the class are expected to follow the rules of common courtesy in all email messages, threaded discussions and chats. or a description of what is expected and what will occur as a result of improper behavior see http://teach.ufl.edu/docs/NetiquetteGuideforOnlineCourses.pdf.

Religious Holidays
The university calendar does not include observance of any religious holidays. The Florida Board of Governors and state law govern university policy regarding observance of religious holidays. Students shall be excused from class or other
scheduled academic activity to observe a religious holy day of their faith with prior notification to the instructor. Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. Students shall not be penalized due to absence from class or other scheduled academic activity because of religious observances.

University’s Syllabus Policy
The University’s complete Syllabus Policy can be found at:
http://www.aa.ufl.edu/Data/Sites/18/media/policies/syllabi_policy.pdf

GETTING HELP
For issues with technical difficulties for E-learning, please contact the UF Help Desk at:
Learning-support@ufl.edu
(352) 392-HELP - select option 2
https://lss.at.ufl.edu/help.shtml
Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from LSS when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

Other resources are available at http://www.distance.ufl.edu/getting-help for:
Counseling and Wellness resources
Disability resources
Resources for handling student concerns and complaints
Library Help Desk support

Should you have any complaints with your experience in this course please visit http://www.distance.ufl.edu/student-complaints to submit a complaint.

Counseling Resources
Students experiencing crisis or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. Both the Counseling Center and Student Mental Health provide confidential counseling services at no cost for currently enrolled students. The Counseling Center is located at 301 Peabody Hall (next to Criser Hall). Student Mental Health is located on the second floor of the Student Health Services in the Infirmary. For further information on services and how to make an appointment, call the Counseling Center at 392-1575 or Student Mental Health at 392-1171. See the following websites for additional resources: Counseling Center: www.counsel.ufl.edu and Student Mental Health:  http://www.hsc.ufl.edu/shcc/smhs.htm

U Matter, We Care
Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.
