COURSE DESCRIPTION

A construction project is simulated with each student being responsible for designing, developing, estimating, scheduling, contracting, and administering the works for the completion of a small commercial or light industrial project.

COURSE LEARNING OUTCOMES (CLOS)

Upon completion of the course, students will demonstrate their ability to:

- 1. Formulate the overall design of the project and prepare a 3D virtual model.
- 2. Perform quantity takeoffs and develop a complete estimate of project costs.
- 3. Organize the elements of the project into a viable construction work plan and schedule.
- 4. Set up a project administration system for contracts, schedule of values, and pay applications.
- 5. Organize, present, and defend the technical and financial data of the project.
- 6. Prepare a project proposal from a commercial development/investment perspective.

COURSE DELIVERY METHOD

This course will be conducted with a two-period session of lecture, followed by a two-hour period of "lab sessions". You are expected to follow along during the lecture and take notes in order to apply the new concepts to your assignments during the lab period. The lab period will be a workshop / seminar style where you are expected to work on the assignment and ask questions to help you successfully master each topic. To accommodate full coverage of all necessary topics for completing all course deliverables, discussion of project requirements and related topics will also take place during these lab sessions.

ASSIGNMENTS AND FINAL PROJECT SUBMISSION

- Late submissions are not acceptable, regardless of circumstances.
- All work turned in for this course should be of professional quality (grammar, etc.).
- All the assignments and final project have to be **submitted exclusively in Canvas**.
- It is your responsibility to verify the successful submission of the assignments/final project in Canvas. Submission by email or the digital media (such as USB drive) will not be accepted.
- In the case you have technical difficulties with Canvas, please contact the UF Help Desk at learning- support@ufl.edu, or (352) 392-4357 select option 2 or go to Ground floor of the Hub. If your technical difficulties will cause you to miss a due date, you MUST report the problem to UF Help Desk before the due date/time. Include the ticket number that you are given in an e-mail to the instructor to explain the late assignment due to problem with Canvas.

UF POLICY

University Policy on Accommodating Students with Disabilities: Students requesting accommodation for disabilities must first register with the Dean of Students Office (http://www.dso.ufl.edu/drc/). The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive. Therefore, students should contact the office as soon as possible in the term for which they are seeking accommodations.

University Policy on Academic Misconduct: Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code at http://www.dso.ufl.edu/students.php.

University Policy on Teaching Evaluation: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

CLASS DEMEANOR

It is expected that everything submitted for a grade will be professional, with correct spelling and grammar. The expectations and caliber of the work expected in this course are elevated to the level of the business community and evaluated against that baseline. If your work product is considered unacceptable in the workplace, then it is unacceptable here. The goal is for all work to represent what you would submit to your immediate boss in a job scenario. If your boss will not accept your work, then we will not accept it either. Your work is subject to electronic verification by TurnItIn® or other technologies.

HONOR CODE

- The Honor Code will be applied in the class. We, the members of the University
 of Florida community, pledge to hold ourselves and our peers to the highest
 standards of honesty and integrity. On all work submitted for credit by students at
 the university, the following pledge is either required or implied: "On my honor, I
 have neither given nor received unauthorized aid in doing this assignment."
- **Duplication of an assignment and quiz/exam/project/activity** both manually or by computer will be considered an act of academic dishonesty and dealt with accordingly. Any violation of the Honor code will not be tolerated. A student that is found guilty of Academic Dishonesty will be given a **failing grade** for the course.
- Do not allow others to access your files as that will also be considered a violation of the Honor Code.
- Use of ChatGPT or other AI tools are prohibited.
- Visit the website http://www.dso.ufl.edu/sccr/honorcodes/honorcode.php for more information about the University of Florida Student Honor Code.
