COURSE DESCRIPTION: Study of the organization and functioning of the construction industry based on principles of contract law, and the application of contract law to construction contractual relationships.

INSTRUCTIONAL METHODS: Class lectures, videos, quizzes, discussion, assignments, exams.

PURPOSE OF COURSE: This course is the first in a series of Construction Management courses and is designed to teach basic legal principles involved in the building of a construction project. “Contracts” provides a general understanding of contractual relationships in the construction industry, and the most common forms of contractual relationships between the owner, designer, contractor, subcontractor and supplier. This course will include a close examination of basic principles of CONTRACT LAW, the AIA contract documents, and certain alternative forms of contracts. The relationship of each contracting party to the other will be identified and remedies to balance the risks involved in construction will be discussed.

COURSE LEARNING OUTCOMES (CLOs): Upon completion of the course students will be able to demonstrate their ability to: write a basic contract based on legal principles; be able to understand the various construction contracts; understand the roles and legal obligations/requirements of the procurement process; understand construction lien law and the contractor’s rights, responsibilities and remedies; warranties, and bonds, and be aware of their importance; knowledge regarding labor law; be aware of the ethical questions that arise in construction contracts.
