**BCN 4612C – Estimating II**

**Spring 2025**

**3 Credits**

**Instructor:** Dr. Aladdin Alwisy, RNK 311, Rinker Hall  
[aalwisy@ufl.edu](mailto:aalwisy@ufl.edu), Phone: 273-1157

**Prerequisites:** BCN 3611, Senior Standing

**Description:** Analysis and determination of the cost of construction operations including labor, materials, subcontractor costs, and the associated indirect and overhead costs and profit. Conceptual estimating is introduced and used as a tool to review a project's feasibility, initiate value engineering analysis and establish budgets. Extensive analysis of material supplier, subcontractor, and labor quotes for each technical section. Bidding various technical sections as a subcontractor and bid day simulation using estimating software. Post bid issues including change orders, schedule of values, contract modifications, and professional ethics are discussed.

**Method:** Four (4) hour combination lecture/laboratory contact hours per week.

**Objectives:**

- The students will be able to identify the duties and responsibilities of the professional estimator (ACCE SLO 6 *Ethics* and 13 *Risk*)
- The students will have the skills and confidence needed to understand and accurately estimate and bid on commercial and residential construction projects (ACCE SLO 4 *Estimating*, 9 *Team*, and 10 *IT*).
- To help the student recognize that having the ability to accurately estimate the cost of any construction activity is a necessary and fundamental requirement in any construction career path (ACCE SLO 4 *Estimating*, 9 *Team*, and 10 *IT*).

**Required Texts:** RS Means Building Construction Cost Data, latest edition, R.S. Means Co., Inc., Kingston, MA (*\*may be available online*)

**Recommended Text:** Fundamentals of Construction Estimating, Pratt, Delmar Publishing, latest edition.  
Estimating in Building Construction, Steven J. Peterson, Frank R. Dagostino, Pearson Publishing, latest edition.  
Construction Estimates from Take-off to Bid, Norman Foster, McGraw-Hill Book Co., latest edition.

**Other Requirements:** EXCEL spreadsheet, software applications as necessary

**Classes** For class hours and location, please check the Teaching Schedule from ONE.UF

**Office Hours** TBD

By Appointment:

Email [aalwisy@ufl.edu](mailto:aalwisy@ufl.edu). The subject line should read *BCN 4612 APPOINTMENT REQUEST-<your name>*.

Please provide a brief description of what you want to discuss. Also please suggest one or two alternate times for scheduling other student requests. I will send you an e-mail about the appointed time.

**TA:** TBD

**Attendance:** Attendance is mandatory. You have three unexcused absences. To have an absence excused, you need to bring proof of why it was unavoidable (doctors note, etc.)

**In-Class Group Assignments:** In-class assignments are group assignments that must be solved during the class (lab sessions) by everyone in the group. If a student is absent during an in-class assignment, they will receive ZERO on that in-class assignment. Students will have until midnight of the following day to submit their in-class assignments, however, students are not allowed to leave the lab session early without confirming that they submitted their work.

**Exams:** NO MAKEUP EXAMS.  
There are three CLOSED-BOOK exams; No appendices will be provided. The exams' results must be discussed in person within 24 hours after the quiz/exam has been taken. After 24 hours the grade is final.

**Final Project:** The final project will cover a variety of topics taught throughout the year. It is a group project where a peer review will be implemented to assign 50% (i.e., up to 150 points) of the report's grade.

**Final Exam:** There is no final exam.

**Bonus points:** Bonus points opportunities will be given throughout the semester in class.

**Grade Breakdown:** Final grades will be calculated as follows:
