COURSE INTENTIONS

This course equips students with valuable real-world experience which will enrich their learning experience in interior design. Your studio instructor has organized a series of complex design experiences intended to expand your creative range as a designer and challenge your intellect as a budding professional. The class membership will be considered as a major source for experiential attitudes, design methodologies, and creative problem solving. The design challenges have been selected in order to provide a framework for invention, innovation, and cross-fertilization.

Required Studio Text(s)

Appropriate handouts including guidelines, code information, research articles, web-based software, and book excerpts will be issued to provide support material for each project. In addition, each student is responsible for seeking sources and resources to support their design intent, development and innovation.

Studio Work

Working in studio is essential as it establishes a collective energy for the design process and fosters creative exchanges between students. Design work should be completed in your assigned studio. Group work is encouraged to increase the quality of your daily work.

Attendance and Participation

Students' participation in the studio is defined as follows: 1) regular attendance; 2) active involvement in studio discussions in a comment and listening mode; and 3) civil and cordial relations with your peer group and project team members. Each student is expected to be on time for lectures and/or discussions. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the catalog at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.
