3.0 CREDIT HOURS

ON-CAMPUS CLASS NUMBER (25657), SECTION PTAH

CLASS MEETINGS: Rinker Hall, Room 225 Monday | Period 3 (9:35 AM - 10:25 AM) Wednesday | Periods 2 - 3 (8:30 AM - 10:25 AM)

ONLINE CLASS NUMBER (18175), SECTION 6100

CLASS MEETINGS: There are no required class meetings for the online students. The intent of this blended class of online and on-campus students is for the students to have some opportunity to interact. We will explore this further as we get into the class during the semester. I will also be holding evening town hall meetings that all students can join.

INSTRUCTOR: Dr. Kristin Larsen, FAICP TEACHING ASSISTANT: Mwansa Mwape klarsen@ufl.edu mmwape@ufl.edu

OFFICE HOURS: Mondays and Wednesdays from 2:00 – 3:00 PM, I will hold office hours in my office 464 Architecture Building. Please sign up for a time slot through the course's Canvas Calendar. These meetings can be in person or via Zoom, so please indicate when you sign up for a time slot which you prefer. I can also meet with you outside of office hours by appointment at times that work for both of our schedules. Just send an email to the above address through our Canvas class site so we can find a mutually agreeable time.

COURSE DESCRIPTION: This course addresses the history and fundamental theory of planning. Understanding the history and theory of planning requires that we consider three separate but related elements. First, is the evolution of the city as a physical, social, and economic entity. Second, is the evolution of planning as a process, which takes us beyond the field of city planning. Cities have been planned and built by a wide variety of actors, including engineers, politicians, capitalists, reformers, landscape architects, architects, lawyers, and workers. Third, planning has evolved in the United States and in Western Europe since the late 19th Century through a profession of people calling themselves city planners. They, too, have been very diverse, driven by many different motivations and seeing the profession in widely differing ways based upon, among other factors, the various theories of planning. These theories will be discussed within the context of the history of planning and their implications for planning practice.

LEARNING OBJECTIVES: At the conclusion of this course, you should be able to:

• Classify and explain the various roles that planners play in the public and private sectors, and

- within specializations.
- Interpret the various styles of planning and planners' interactions with other participants in the development of cities and regions.
- Develop your own perspective on planning theory.
- Identify, analyze, and critique the justifications for planning and the influence of critical periods in planning history on contemporary planning practice.
- Strengthen
 - critical thinking skills,
 - presentation and verbal communication skills,
 - · evaluation and argumentation skills, and
 - written communication skills that will be important in professional practice.

HOW THIS COURSE RELATES TO THE STUDENT LEARNING OUTCOMES IN THE DEPARTMENT OF URBAN AND REGIONAL PLANNING: This course allows students to demonstrate their understanding of human settlement, contemporary practice, organizational/institutional structures, and policies and processes relevant to the profession of planning. Students will demonstrate critical thinking and professional visual, oral, and written communication skills.

TEACHING PHILOSOPHY: This course allows students to practice the kinds of skills they will use as planning professionals consistent with the learning objectives above. In addition, this course enables you to begin thinking from an interdisciplinary perspective about the ways in which landscape architecture, planning, architecture, law, real estate, and historic preservation inform our work in the built environment and collaborative innovations that are moving these affiliated fields forward.

Students are encouraged to employ critical thinking and to rely on data and verifiable sources to interrogate all assigned readings and subject matter in this course. No lesson is intended to espouse, promote, advance, inculcate, or compel a particular feeling, perception, viewpoint or belief.

INSTRUCTIONAL METHODS: This course will be run primarily as a seminar and will include reading assignments, lectures and class/online discussions, in-class/online presentations, in-class individual and group activities, and written assignments. Writing well is a critical skill in planning. Thus, being able to effectively communicate your ideas and analysis of course material in writing will form an important component of this course. **Please note, the University standard is for students to expect to study at least 3 hours weekly for each credit hour. So, for URP 6100 you should expect to study 9 hours per week outside of class.**

CANVAS: It is your responsibility to regularly check this course's Canvas site. The syllabus, course schedule, readings, lecture slides, videos, other materials (e.g., assignment instructions), and important announcements will be provided via Canvas. Grades will be posted via Canvas.

COURSE COMMUNICATIONS: Announcements will be used to notify you about course updates, additions, and corrections. Private questions can be emailed to the instructor through the Canvas

email. I typically check my email once a day (usually after lunch). If it is an urgent matter, I will do my best to respond as promptly as possible. In general, I typically respond within 1-2 business days (Monday-Friday). Please do not ask questions over email that require a long response. You should see me during office hours to ask any in-depth questions. I do not respond to emails over the weekend. As a rule of thumb, please ask yourself if your question: (a) can wait until our next meeting (including class, office hours, appointments, or scheduled town halls), (b) is already answered in the syllabus, and/or (c) is already answered on the Canvas site via Announcements.

COURSE TEXTS: The first two are required; the third is strongly recommended.

- Hall, P. (2014). Cities of Tomorrow: An Intellectual History of Urban Planning and Design Since 1880 (4th Ed.). Malden, MA: Wiley-Blackwell. Available through the library as an e-Book.
- Fainstein, S. & DeFilippis, J. (Eds.). (2016). *Readings in Planning Theory* (4th Ed). Malden, MA: Wiley-Blackwell. Available through the library as an e-Book.
- American Psychological Association (2020). Publication Manual of the American Psychological Association: The Official Guide to APA Style (7th ed.). Washington, DC: American Psychological Association. This text not only assists you with grammar and style, it also provides guidance for proper citations.
- All readings can be found in the Course Schedule and are assigned within modules where
 you can find most of the links to them. Other readings, such as the assigned book for your
 presentation, will be available through the UF library system via Course Reserves as e-Books
 or at the Architecture and Fine Arts Library lending desk. Course Reserves are accessible in
 Canvas or through the UF Library website. See more about accessing Course Reserves via
 Ares here.

COURSE ORGANIZATION:

Module	Topics Covered
1	Common Themes: Introduction to Planning Theory and History
2	Progressive Movement: The Birth of City Planning
3	City Beautiful versus City Functional
4	City Visionary: The New Deal & Regional Planning
5	Post-war Challenges and Opportunities
6	Retrenchment from the Public Realm
7	Current & Future Directions
8	Synthesis of Planning Theory & History – The Reflective Practitioner

The course consists of eight modules. During the term, you will prepare a Book Presentation and Critique with Handout, participate in two debates (on-campus students will do this in class), and prepare a Final assignment in three parts over the last weeks of class that synthesizes the course material. There are also some minor assignments. Some assignments differ based on whether you are an on-campus or online student. You will find more information on the assignment instructions in Canvas. The following table summarizes the assignments based on whether you

are an on-campus or online student and includes the percentage of the course grade associated with each assignment.

	On-Campus Students		Online	Students
Assignment	Points	Percent	Points	Percent

In written work, the format for all attributions should be consistent with the *Journal of the American Planning Association* (JAPA) based upon the *Publication Manual of the American Psychological Association, 7th Edition* (2020). For a quick online guide to in-text citations, see: https://apastyle.apa.org/style-grammar-guidelines/citations. Citations should appear in text as follows (using the course text): (Hall, 2014) when using a general idea from the text or (Hall, 2014, p. 318) when using a specific quote or data from the text (in this case, on page 318). All written assignments must include a reference list. For a quick online guide to proper formatting of reference lists, see: https://apastyle.apa.org/style-grammar-guidelines/references/examples.

Unless otherwise instructed, all written assignments should be single-spaced with 1-inch margins and no larger than 12-point font. Be sure to meet all minimum word or page requirements.

COURSE POLICIES:

POLICY ON USING AI IN THIS CLASS: This policy is adapted from "<u>Classroom Policies for AI Generative Tools</u>". Artificial intelligence is a rapidly evolving field that has many applications and implications for various disciplines. Different courses and instructors will have different policies regarding the use of AI tools and services. It is your responsibility to follow the AI

policies for each of the courses where you are enrolled. Violating the AI policies of any course may result in serious consequences, such as a lower grade or a failing mark.

A Word about Integrity: Integrity – other people's perception of your word as true – is one of the most valuable assets you can cultivate in life. Being attentive to integrity in academic settings allows others to trust that you have completed work for which you are taking credit. In your profession, it is symbolic of the public trust, professional liability, and ethics associated with planning and related fields.

This is my current thinking on generative AI and will serve as policy for this course. As I learn more, along with you, about these tools and as they evolve, I may adjust this policy. If I make any adjustments, I will always announce them ahead of any upcoming assignment to which the policy will apply. This policy applies to all written assignments (including discussion posts and responses), all presentations (including your notes for presentation as well as graphics/images and slides), and any other class assignments we will have over the course of the semester.

The purpose of assignments in this course is for you to demonstrate your writing, presentation, and critical thinking skills while providing you with opportunities to grow as a communicator, thinker, scholar, and professional. Overall, I ask you to embrace the challenges of learning, scholarship, and personal growth and write without using GenAI. If you must use it, the following is permitted:

- Brainstorming and refining your ideas;
- Providing background knowledge (with the understanding that GenAI tools are often wrong—always fact-check to ensure accuracy); and/or
- Drafting an outline to organize your thoughts the caution here being not to use it to generate any written material for this class by copying the material.

Note: I understand that programs such as Word check and correct your writing (i.e., grammar and spelling); I consider such tools an appropriate use of AI in this class.

If you use GenAI for any of the assignments in this class, please keep the following in mind. There is a good possibility that using tools like these is going to become an important skill for careers in the near future. In the meantime though, it's going to take a while for society to figure out when using these tools is/isn't acceptable and under what conditions. There are four primary reasons why:

- Work created by AI tools is not considered original work. It is derived from previously created texts from other sources that the models were trained on but does not cite those sources.
- Al models have built-in biases (i.e., they are trained on limited underlying sources; they reproduce, rather than challenge, errors in the sources).
- Al tools have limitations (i.e., they lack critical thinking to evaluate and reflect on criteria; they lack abductive reasoning to make judgments).
- Al fabricates or "hallucinates" seemingly credible data all the time. It can generate wholly inaccurate content that is nonetheless highly persuasive. This is especially true when asking it for references, quotations, citations, and calculations.

Presenting material in any assignment as if it is your own, when it is not, whether generated by AI, copied from a text, or copied from a website, is considered plagiarism in this class. The writing exercises and assignments in this class must be your original work. Remember, I expect you to use class and other relevant resources, particularly the course readings, as evidence to reinforce your points, and when you do so to properly cite those sources as outlined on page 4 of this syllabus. **GenAI is not permitted as a means to generate your writing in this class for any assignment.** Do not quote it. Do not use it for this purpose.

You will be responsible for any inaccurate, biased, offensive, or otherwise unethical content you submit regardless of whether it originally comes from you or a GenAI model. Throughout this course, keep the following in mind: AI is not appropriate for all situations and contexts. If you choose to use it consistent with course policy, be thoughtful in how you use it. AI is not a replacement for knowing and understanding the material. Finally, be alert for AI-enabled phishing. Generative AI has made it easier for malicious actors to create sophisticated scams at a far greater scale.

If you have questions about AI use and/or proper attribution of other people's work, please come ask me! Scholarly citing is not particularly intuitive, and part of my role is to help you learn the rules for intellectual attribution.

ON-CAMPUS STUDENTS ATTENDANCE: For on-campus students, attendance is mandatory and is part of your class grade. Attendance will be recorded at the beginning of every class. If you are not feeling well, stay home and take care of yourself. There are two types of absences – excused and unexcused. Absences for reasons of illnesses, religious holidays, serious family emergencies, special curricular requirements, military obligations, court-imposed legal obligations, or participation in official university activities, as described in this link: UF
Attendance Policies are excused. Please inform me of your absence as early as possible and be prepared to provide appropriate documentation. You are responsible for contacting a classmate to obtain notes on the materials covered.

Failure to attend class regularly and/or consistent tardiness (or leaving early) will affect your attendance and class participation evaluation dramatically. When you arrive more than 10 minutes late without explanation or leave early without prior approval, I consider that a missed class. If you arrive after I have taken attendance, please see me at the end of class to ensure I mark your attendance appropriately.

If you encounter an emergency or illness that may cause a prolonged absence, you should contact the Dean of Students Office (202 Peabody Hall, 392-1261) for assistance. Resources are available through their website at: https://umatter.ufl.edu/.

ON-CAMPUS STUDENTS CLASS PARTICIPATION: You are expected to come to class on time, do the readings ahead of time, be prepared to discuss them, be an active listener, and participate

regularly. Your participation will contribute to the learning of your fellow classmates. Sleeping, texting, being online without permission, or otherwise disengaged or disrespectful behavior will affect your class participation grade significantly.

ON-CAMPUS STUDENTS PERSONAL CONDUCT POLICY: Above all else, the classroom (virtual and physical) is a place of respect for people and ideas. You are expected to treat your fellow classmates, the instructor, guests, and others with respect and politeness. Please be on time and prepared to share your informed questions, impressions, and interpretations of that day's reading materials. If you need to leave class early, please let me know ahead of time. We will take a break in the middle of the two-hour block. Students engaging in disruptive behavior, including using their electronic devices for any non-class uses, will be asked to leave the class and will be marked absent for the day. Cell phones must be switched off in class and stowed away. Unless instructed to do otherwise, you should refrain from using your laptop during class. We will have in-class assignments where you will use your laptop, and I will clearly notify you of these opportunities. If you need to take notes of the lectures, please bring pen/pencil and paper to class.

GRADING POLICIES:

LATE ASSIGNMENTS: Meeting deadlines matters! All assignments are due as indicated in the assignment instructions; UF is in the Eastern Time Zone, so all deadlines reflect this time zone. Computer problems that arise during submission will not be accepted as an excuse for late work. All work must be completed and submitted in Canvas by the designated date and time. Late assignments will be marked down half a grade for each day they are late (i.e., from a B+ to a B for being a day late). A day is defined as 24 hours and begins immediately from the due date and time (i.e., the assignment is due at 11:59 p.m. on Wednesday, and you submit it at 12:05 a.m. on Thursday - that assignment is now marked down as being one day late). Information regarding UF's grading policy can be found here.

Grade scale

- A 94 and above
- A- 90-93
- B+ 87-89
- B 84-86
- B- 80-83
- C+ 77-79
- C 74-76
- C- 70-73
- D+ 67-69
- D 64-66
- D- 60-63
- E 59 and below

UF POLICIES:

UNIVERSITY POLICY ON ACCOMMODATING STUDENTS WITH DISABILITIES: Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting https://disability.ufl.edu/get-started/. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

UNIVERSITY POLICY ON ACADEMIC INTEGRITY AND THE UF HONOR CODE: UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The Conduct Code (https://sccr.dso.ufl.edu/process/student-conduct-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor.

NETIQUETTE – COMMUNICATION COURTESY: All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats.

COURSE EVALUATIONS: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

WEEKLY COURSE SCHEDULE:

WEEKLY COURSE SCHEDULE FOR FALL 2025: The course week runs from Monday through Sunday. Readings should be completed by the scheduled date during the module in which they are assigned. All assignments are due by the time (Eastern Time Zone) and date noted on the Fall 2025 Course Schedule posted on our class Canvas site and in the assignment instructions.

DISCLAIMER: This syllabus represents my current plans and objectives. As we go through the semester, those plans may need to change with adjustments to readings, assignments, and/or resources to enhance class learning opportunities. Such changes, communicated clearly, are not unusual and should be expected. If any changes occur, the Course Schedule and/or Syllabus will be adjusted. It is best practice to regularly consult these resources posted in Canvas as they will always be the latest versions.

Course Schedule Fall 2025

The course week runs from Monday through Sunday. Readings should be completed prior to class on the days they are assigned. All Assignments are due by the time (Eastern Time Zone) and date noted below. Throughout the semester, this schedule may be revised, including readings, assignments, and/or resources, to enhance class learning opportunities. Such changes are not unusual and should be expected. The fall semester begins on August 21 with our first class on August 25.
